# FOREWORD

UGC is currently undertaking Higher Education Reform Project (HERP, 2014-2020) which is a national priority project supported by the World Bank for facilitating implementation of the higher education policy framework of Nepal. The national higher education policy framework emphasizes on systemic development of higher education in the country. For the success of the policy implementation, it is imperative that the system is capable with reliable EMIS. UGC has been developing Higher Education Management Information System (H-EMIS) as a crucial part of higher education system development. One of the important aspects of the H-EMIS development is the annual report publication, this report is the ninth publication in this line.

The national higher education policy framework lists major thrusts of ensuring access to higher education on the basis of aptitude and equity, criteria based quality assurance, priority based relevance, research based innovation and development, and performance based public funding, and shared ownership with public and private stakeholders in development, operation and management. The H-EMIS development is based on a framework of systemic and program indicators, tools for data collection, and parametric, situational as well as trend analyses. This report covers major parts of the H-EMIS indicators and analyses.

UGC is aiming to build a comprehensive and coordinated HEMIS extending from UGC to the universities and to their campuses, made open and accessible to concerned stakeholders. UGC is developing H-EMIS to which EMIS modules of all universities can be docked in. For this Universities need to develop their EMIS compatible to UGC E-HEMIS. The main strategy is to develop web-based compatible EMIS system. Tribhuvan University has been developing 6 modules that can be docked into the main TU EMIS system. The student registry and examination data base module has already been completed and is scheduled for launching from 2017. There are greater management challenges in developing such comprehensive EMIS in higher education. The first challenge is to ensure that all universities and their campuses as well as other HEIs maintain verifiable data, and on time. The second challenge relates to developing compatibility of data from different sources and modules.

The experiences of H-EMIS development initiatives in Nepal indicates that all the universities, campuses and other higher education institutions in the country are still struggling to establish and maintain their respective EMIS, updating the data and making them available to all concerned stakeholders. Every year data collection faced similar challenges repeatedly – getting data on time and ensuring that the data are verifiable. HERP which considers H-EMIS as one of the main agenda of the project is supporting universities and their campuses to undertake key reforms envisaged by HE policy including development of their respective EMIS.

This EMIS Report lists the information related to higher education institutions, programs, students, faculty members, and financing. The data are disaggregated by important variables and are analyzed to provide important issues in terms of the indicators. Basically it is intended to disseminate updated data /information on higher education. It is expected to benefit researchers and people concerned with higher education planning, program developing, and monitoring. UGC would like to request the readers to provide feedback and suggestions for improvement of the report as well as H-EMIS as a whole.

# ACKNOWLEDGEMENTS

This report has been prepared based on the data as well as advices provided by the Ministry of Education, Ministry of Finance, Central Bureau of Statistics and Universities, their campuses and several other institutions. University Grants Commission Nepal highly acknowledges their kind cooperation and support. UGC would like to express thankful appreciations to the contribution made by Mr. Mohammad Umar and Mr. Bidur Dhakal from the Office of the Controller of Examination. Similarly, thankful appreciations go to Mr. Dhurba Rimal, Ms. Rupa and Ms. Ranju from the Faculty of Management, Tribhuvan University; Mr. Shekhar Dhungana from Kathmandu University; Ms. Archana Shrestha from Patan Academy of Health Sciences; Mr. Lok Raj Dhakal from Pokhara University; and staffs responsible for data management from Far Western University, Mid-Western University, Agriculture and Forestry University, National Academy of Medical Sciences, Lumbini Bauddha University, Nepal Sanskrit University and BP Koirala Institute of Health Sciences. Developing and maintaining H-EMIS is a collaborative work, contribution of the participating organizations and HEIs are crucial for up keeping the data system and publication of this annual report regularly, we remain confident for continued cooperation and support of all stakeholders in future endeavors. Several people are involved in the preparation of this report - Professor Hridaya Ratna Bajracharya, (Technical Advisor, UGC) provided overall professional and technical guidance; Professor Pushkar Bajracharya for his invaluable suggestions, Professor Rajendra Dhoj Joshi, and Professor Mohan Prasad Aryal from the World Bank provided detailed comments and suggestions and also helped insure internal consistency; and Mr. Dinesh Bajracharya EMIS Specialist meticulously compiled the data and prepared the write-up. UGC highly appreciates their contributions. UGC also appreciates the special contribution of all the concerned staffs of the commission in the publication of this report.

# EXECUTIVE SUMMARY

## SUMMARY

This annual EMIS report 2015/16, the ninth edition, shows the status of higher education in Nepal in year 2015/16. Nine full universities and four medical academies (governed by government of Nepal) and their constituent and affiliated campuses are providing education on different programs of different faculties to the students. The campuses of the universities are categorized into two types: constituent and affiliated. The affiliated campuses are either private or community-based.

The nine full universities and four medical academies are: Tribhuvan University (TU), Kathmandu University (KU), Pokhara University (PokU), Purbanchal University (PU), Nepal Sanskrit University (NSU), LumbiniBauddha University (LBU), Far-Western University (FWU), Mid-Western University (MWU), and Agriculture and forestry University (AFU), National Academy of Medical Sciences (NAMS), B.P. Koirala Institute of Health Sciences (BPKIHS), Patan Academy of Health Sciences (PAHS) and Karnali Academy of Health Sciences (KAHS). FWU, MWU, AFU and KAHS are the three new universities and a medical academy which have just started to run educational programs.

In the year 2015/16, there are altogether 1407 higher education campuses, 98 constituent (6.97 percent) campuses, 777 private (55.22 percent) and 532 community (37.81 percent) campuses.

TU is the largest university in terms of the student strength and the number of campuses. It has 1,161 campuses (60 constituent and 1,101 affiliated campuses). The other major universities in terms of student number are PU, PokU, and KU. These universities have more than 15000 students and more than 20 campuses; PU has 131 (9.31 percent) campuses, PokU has 62 (4.41 percent) campuses, KU has 21 (1.49 percent) campuses. The medical academies do not have any private campuses; they have only one constituent campus each.

In terms of the ecological belts 59.13 percent (832) campuses are located in Hill (highest), 35.67 percent (502) campuses in the Tarai and 5.18 percent (73) campuses in the Mountain. In terms of the provinces 612 (43.5 percent) campuses are located in third province (highest), 197 (14 percent) in fifth province, 196 (13.93 percent) in first province, 126 (8.96 percent) in second province, 124 (8.81 percent) in fourth province, 96 (6.82 percent) in seventh province and 56 (3.98 percent) campuses in sixth province.

In terms of the level of study 1270 campuses are offering Bachelor level of programs and 258 campuses are offering Master level of programs.

### Enrollment in Higher Education

In year 2015/16, total 361,077 students are enrolled in Higher Education. TU has 284,453 (78.80 percent) students, PokU has 26,032 (7.20 percent) students, PU has 23,539 (6.51 percent) students and KU has 16,658 (4.61 percent) students and rest of the students is enrolled in other universities and medical academies.

The enrollment proportion in terms of field of study is 77.87 percent in general programs and 22.13 percent in technical programs. Enrollment in management, education, and humanities is 42.25 percent, 24.83 percent and 10.74 percent respectively as opposed to 9.87 percent in S&T, 5.34 percent in Medicine, 4.69 percent in Engineering.

The distribution of students across the ecological belts shows that 63.58 percent students are in Hill, 34.44 percent students are in Tarai and 1.99 percent students are in Mountain. In terms of the seven provinces 188,996 (52.39 percent) students are in third province, 43,045 (11.9 percent) are in fifth province, 41,350 (11.43 percent) are in first province, 29,380 (8.12 percent) are in fourth province, 23,660 (6.54 percent) are in second province, 23,458 (6.48 percent) are in seventh province and 11,188 (3.09 percent) are in sixth province.

Private campuses have highest number of students among three types of campuses. The share of student enrollment in the community campuses is 30.71 percent, constituent campuses is 33.72 percent, and private campuses is 35.57 percent.

### Share of Girls in HE Enrollment

The overall girl's enrollment in HE in Nepal is about 52 percent. By university, the girls' enrollment proportions of TU

is 54.6 percent, of KU is 48.03 percent, of PokU is 39.29 and of PU is 45.27. The proportions of girls' enrollments in the medical academies is BPKIHS 48.62 percent, PAHS 47.14 percent and NAMS 21.11 percent.

In terms of campus types, the biggest share (63.28 percent) of girl's enrollment is observed in community campuses. This figure is 50.28 percent in private and 43.97 percent in constituent campuses.

The proportion of girls' enrollment is highest in the education faculty (63.68 percent), followed by 61.25 percent in Medicine, 53.51 percent in humanities, 52.79 percent in management. The percentage of girls in total enrollment at various levels of study is 52.75 percent in bachelor and 48.68 percent in master.

### **Gender Parity Index (GPI)**

GPI of HE in year 2015/16 is 1.09. GPI across the three ecological belts are 1.06 in hill, 1.35 in mountain and 1.14 in Tarai. By levels, GPI of bachelors level is 1.12 and masters level is 0.96.

In terms of faculty, medicine has 1.58 GPIs, education has (1.75), management has (1.12), humanities and social sciences has (1.15), S&T has (0.58), and engineering has (0.16).

### **Pass Percent**

The pass rate of three universities: TU, LBU, BPKIHS are 27.97 percent, 63.21 percent, and 92.95 percent respectively in year 2015/16.

The pass rate of faculties of TU in bachelor level of study is 28.14 percent in law, 40.75 percent in humanities and social sciences, 18.20 percent in education, 28.29 percent in management, and 33.13 percent in science and technology. Similarly, the pass rate of different faculties in master level of education is 61.5 percent in law, 68.73 percent in humanities and social sciences and 52.38 percent in education.

The average pass rate of the bachelor level of study is 26.61 percent and for master level of study is 61.8 percent.

### **Graduates**

The figure about the number of graduates included in this report is based only on the number of students included in the grace list prepared by the related universities for the convocation programs.

In 2015/16, total 90428 students graduated from all the universities. Of total, 92.25 percent graduated from TU, followed by 2.75 percent from KU, 4.94 percent from PokU and 0.06 percent from PAHS.

The number of graduates of different faculties of TU is 37.65 percent in education, 32.65 percent in management, and 19.09 percent in humanities, 1.02 in Law.

### **Gross Enrollment Ratio (GER) in Higher Education**

Gross enrollment ratio for higher education considering age group span as 19 – 22 is 15.24 and in terms of level of study 15.24 in bachelor and 4.9 in master level.

### **Public Financing**

The universities have been receiving block grants (i.e. regular and development grants) and the community campuses get small token grants. In case of medical academies, the funds are made available directly through the Ministry of Health and Population. The grants provided to the universities in year 2015/16 is 6,536.8 million.

### **Teachers**

In year 2015/16, the total numbers of teaching staffs (including instructors) is 9142, among them, around 40.4 percent are Lecturers, 26.23 percent are Readers and 7.9 percent are Professors.

### **Student-Teacher Ratios**

The overall average student-teacher ratios (number of students per teacher) are as follows:

TU (12.8:1), KU(34.9:1), MWU (19.5:1), FWU (22.1:1) PokU (17.4:1), BPKIHS (7:1), PAHS (2.5:1), NAMS (0.4:1) and LBU(1.2:1)

## INTRODUCTION

The University Grants Commission (UGC) has undertaken the task of publishing basic statistical information about the higher education (refers bachelors, post graduate diploma (PGD), masters, M. Phil., and Ph.D.) through its annual publication in the form of EMIS report. This report presents information about higher education in Nepal through disaggregated and comprehensive data. It is expected that the information in this report will be useful for planning, policy making, designing programs, and projecting resources for higher education.

UGC established an Education Management Information System (EMIS) under the Second Higher education Project (SHEP, 2007-2014) with support from The World Bank, to ensure quality of the data regarding higher education by standardizing the process of data collection, their effective management and timely publication. It aims to establish UGC as a central database system for the publication and reporting of higher education information. Accordingly, a set of EMIS indicators have been prepared and statistical data forms have been developed.

This is our ninth attempt to bring out such a comprehensive report of statistical information. The main purpose of this volume is to provide adequate, accurate, timely and reliable data to the education stakeholders.

This EMIS Report on higher education has covered a broad range of topics that include information about higher education institutions (universities, medical academies and their campuses), student enrollment, pass rates, gender parity index (GPI), graduates, higher education system, trend analysis, teachers, academic programs, public financing and Gross Enrollment Ratio (GER).

### 1.1 Organization of the Report

There are twelve sections in the report; first section provides introduction of the report, second section provides background information on universities, number of their campuses, distribution of the campuses by the provinces, and universities/medical academies/campuses. Section three gives university-wise information on enrollment status, type of campuses, location, level of education, and gender wise distribution of the available data.

Section four offers data on Gender Parity Index (GPI). Section five provides information on pass rates of the universities. The information on pass rates was obtained from the examination sections of respective universities. Section six presents information about distribution of graduates of universities. Section seven provides the gross enrollment ratios for bachelors and masters degrees, and also for higher education as a whole.

Section eighth presents information on the government financing for universities channeled through the UGC. Information on teachers is presented in section nine; however, the data on teachers remain incomplete, as it was not made available to UGC by several institutions. Section ten lists the student/teacher Ratio (STR) in the constituent campuses of universities. Section eleven provides the student enrollment size of the campus. The last section, section twelve analyses the trends of total campuses, enrollment, graduates, and public financing.

The main texts are followed by annexure in the report. It includes a total of seven annexes. Annex one provides definitions of concepts and terminologies used in the report. The annex two offers a brief description of the higher education system in Nepal (likely to be useful to those not familiar with the higher education sector in Nepal) and the third annex presents brief descriptions of the universities and academies. Annex four presents the report preparation method. Annex five shows detail enrollment in the campuses of the universities. Annex six presents different indicators used in this report and their definitions. Annex seven presents brief introduction of the UGC.

### 1.2 Methodology

This report was prepared through the direct or indirect contributions of the concerned universities, their planning divisions, Office of the Controller's of Examination (OCE) and Dean's Offices as well as various government and HE funding agencies. Relevant documents from UGC, universities, planning divisions, OCE, Dean Offices were used to prepare this report. The pre-defined EMIS indicators of higher education together with its dummy tables have been used as a basis. The data were collected from universities and their examination divisions. Data on status of teachers of most of the universities and constituent campuses were collected through their planning divisions. Data on private campuses, enrollments in Tribhuvan University (TU) and overall pass percentages were collected from their

examination offices. The enrollment data for TU affiliated private campuses is, however, ascertained by assuming that the number of students enrolled is equal to the number of students that appeared in the examinations.

#### **1.2.1 Data Collection**

**Tools:** After the establishment of EMIS section in the UGC, it first identified and prepared higher education system indicators (Annex 6).

#### **1.2.2 Data Processing:**

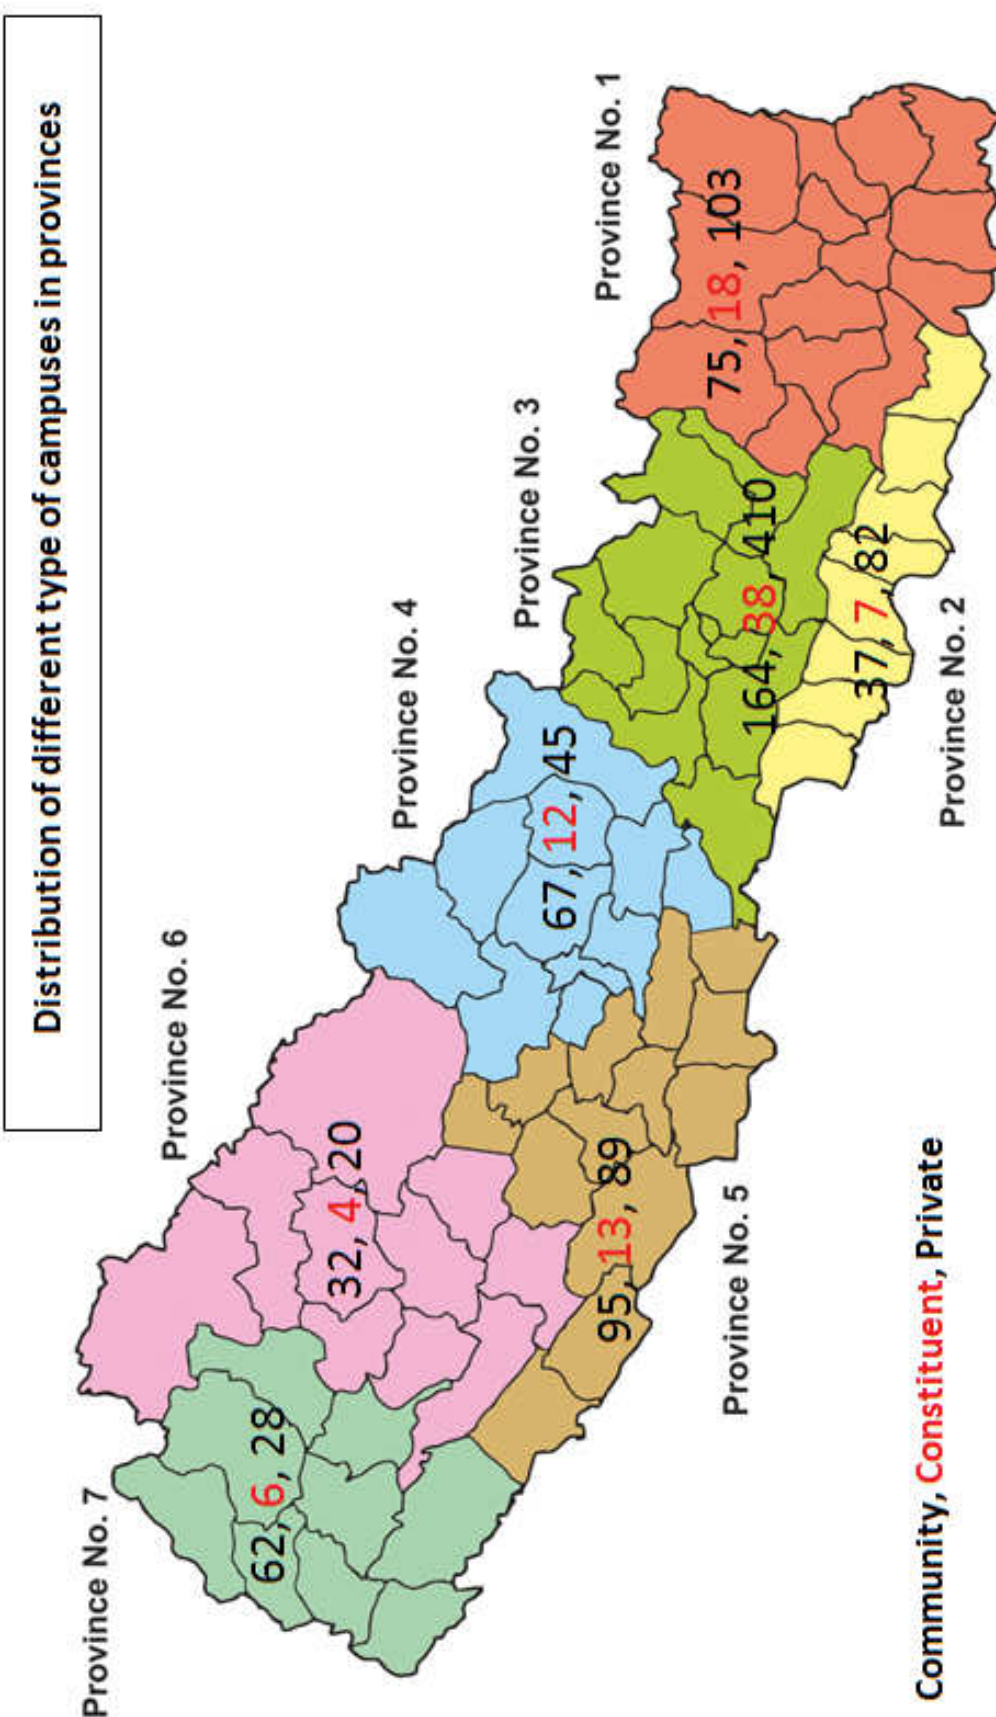

The EMIS section has created a simple database system in order to store and manage the data. The system is maintained carefully so as to have control over the collected data, their coding, entry and verification.

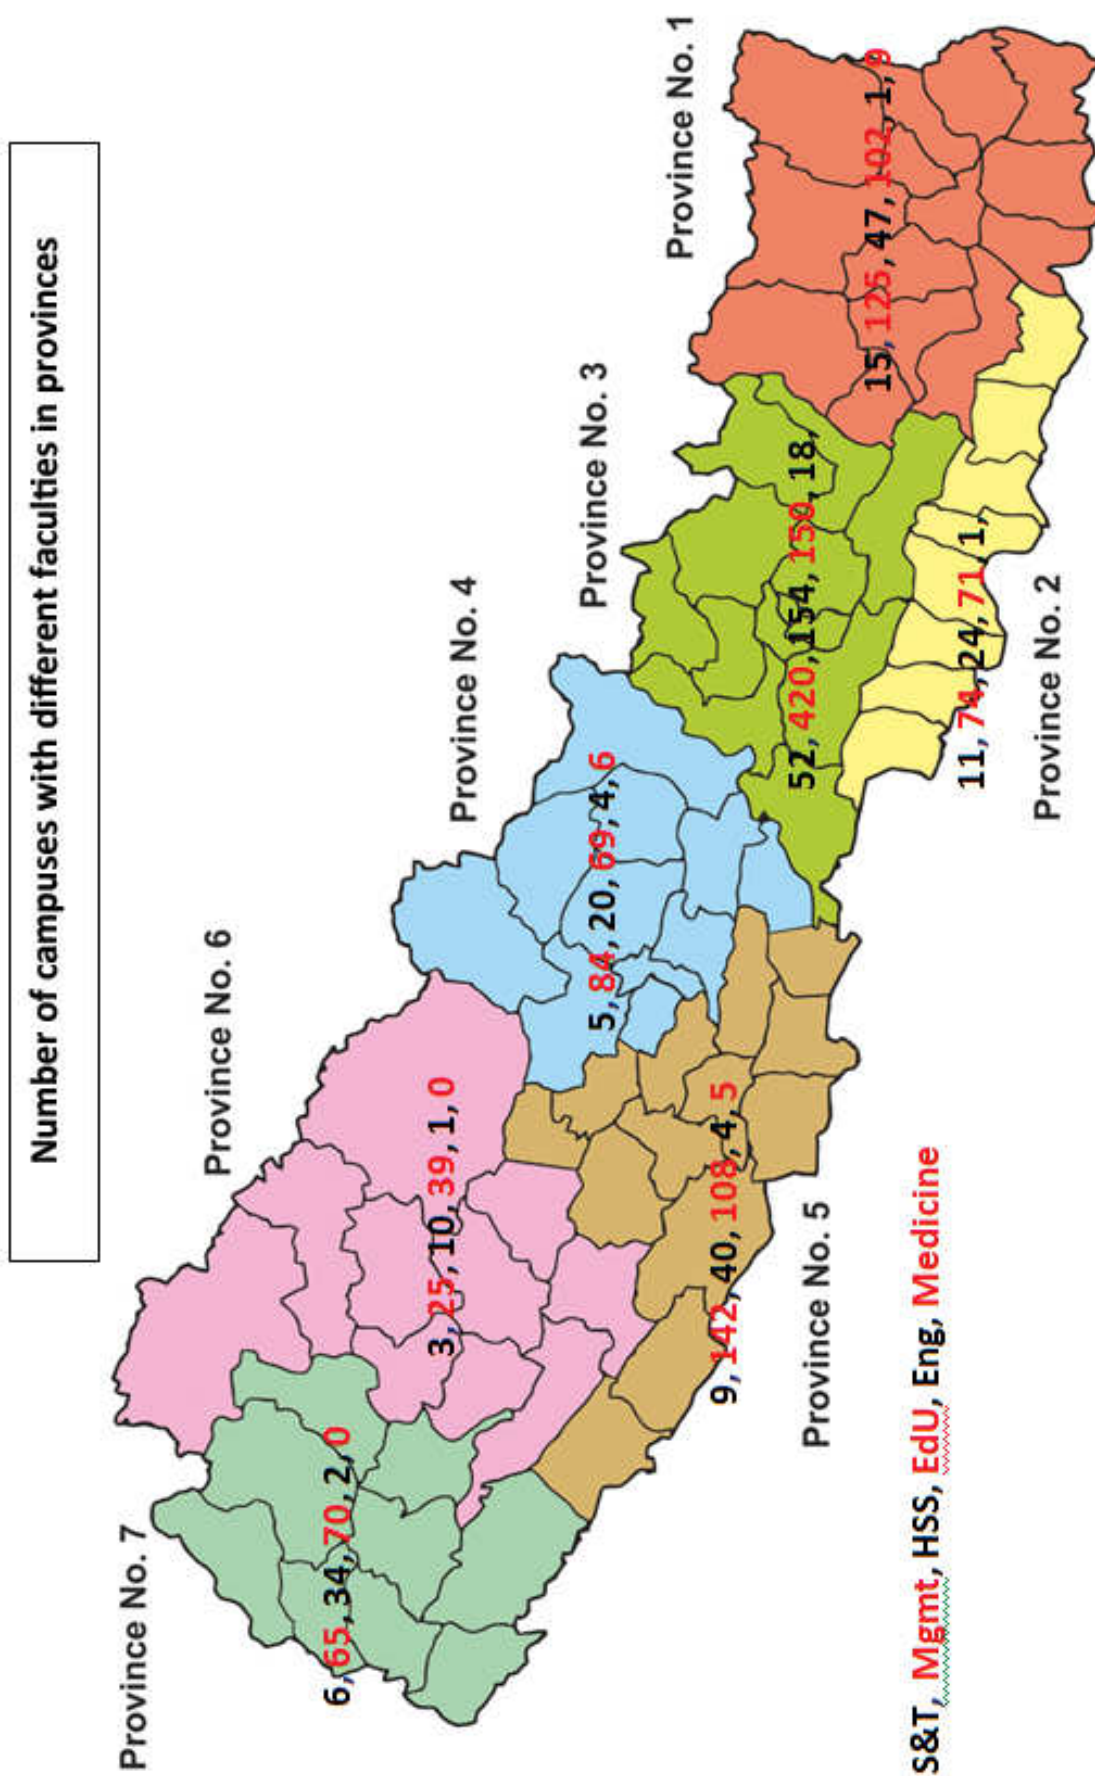

#### **1.3 Scope and Limitations**

Data collection process is very time consuming as all of the universities have not maintained proper computerized information system.

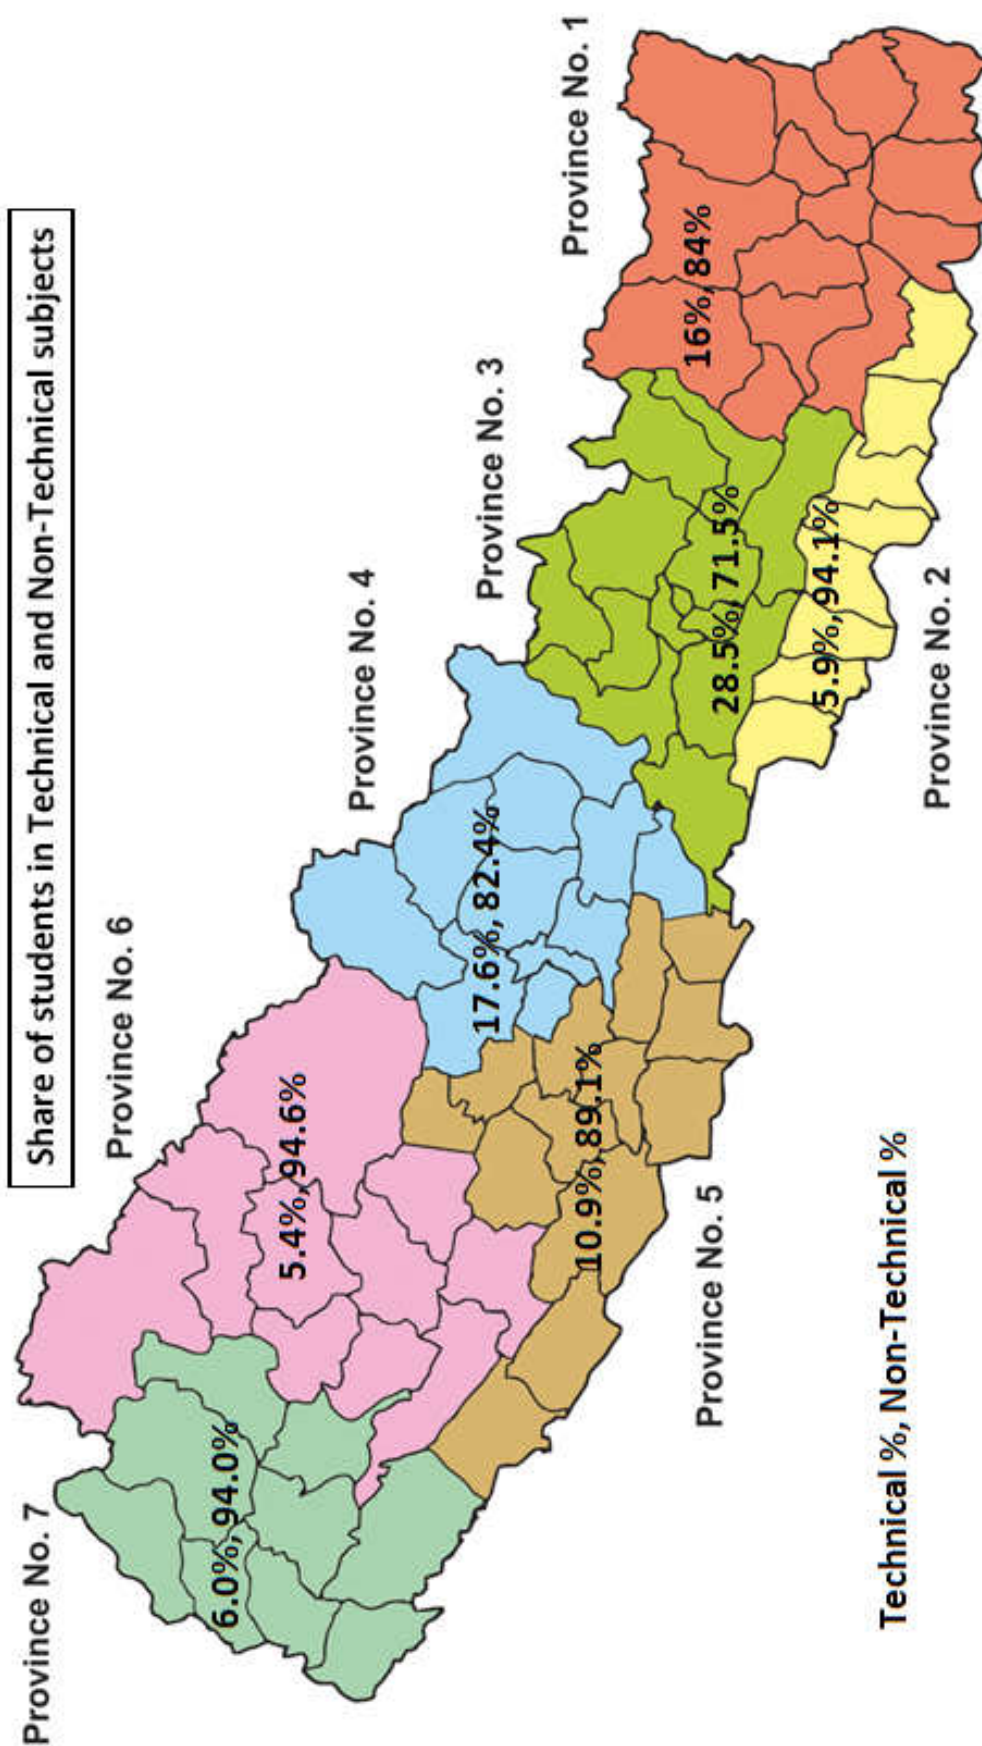

#### **1.4 Data in Maps**

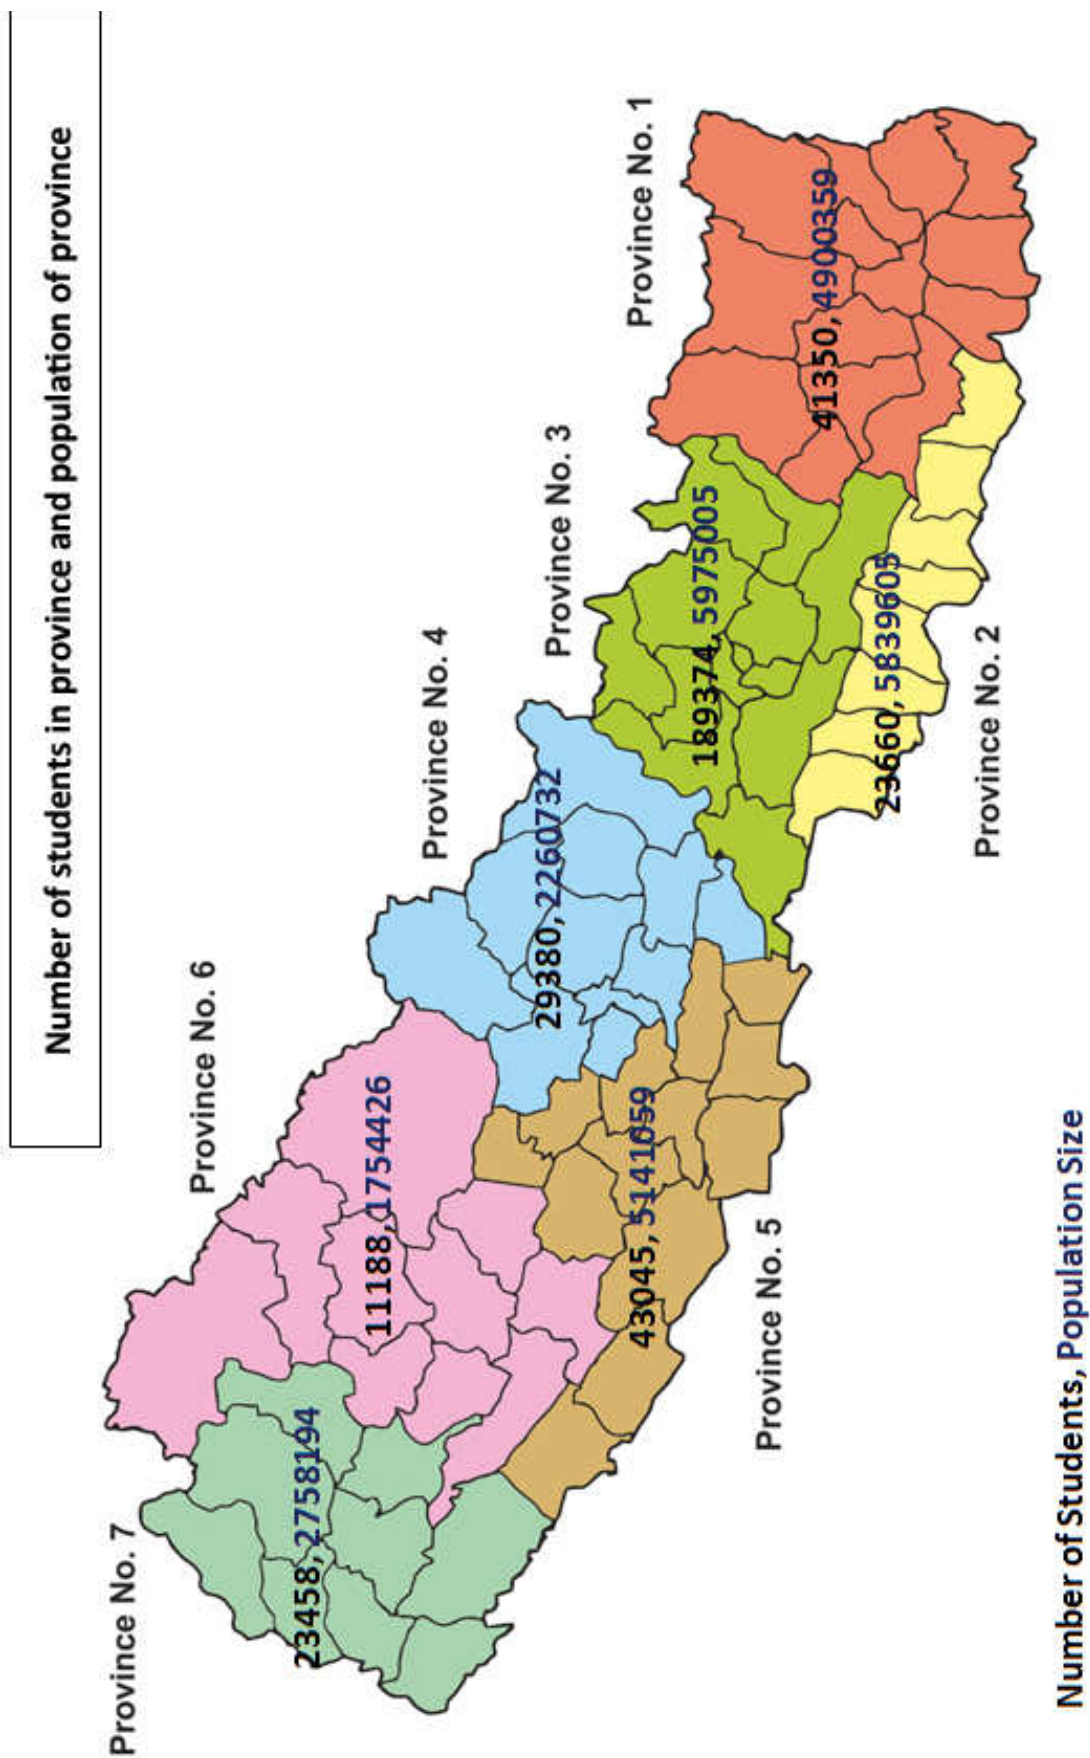

Four maps are developed for the pictorial representation of the distribution of campuses, students in provinces.

## SECTION -2

# UNIVERSITIES AND CAMPUSES

In Nepal higher education is provided by the central departments, constituent campuses and affiliated campuses of the fully autonomous non-private universities. Except newly established universities, all universities have affiliated campuses. Currently thirteen fully autonomous non-private universities/medical academies are established for providing higher education in the country; among those thirteen autonomous institutions, nine are full universities and four are medical academies.

The full universities are Tribhuvan University (TU), Nepal Sanskrit University (NSU), Kathmandu University (KU), Pokhara University (PokU), Purbanchal University (PU), Lumbini Baudha University (LBU), Agriculture and Forestry University (AFU), Mid Western University (MWU), and Far Western University (FWU) and the four medical academies are National Academy of Medical Sciences (NAMS), Patan Academy of Health Sciences (PAHS), BP Koirala Institute of Health Sciences (BPKIHS) and Karnali Academy of Health Sciences (KAHS).

Universities have different faculties, under these different faculties several programs/courses are taught at the central department, constituent campuses and affiliated campuses. The faculties are controlled by the dean's office of the university; for each faculty there is one dean's office.

Bachelor and Master are the two major level of studies offered by the universities. Most of the bachelor programs are now of four years except the medical programs. They are taught in both annual system and semester system. The master level programs are of two years and they are also annual system or semester system based. PhD programs are also offered by some universities but only in their constituent campuses. Universities have two types of campuses: constituent or affiliated. The constituent campuses are managed directly by concerned university and are part and parcel of the universities. Affiliated campuses are controlled and managed by non-governmental organizations and their academic programs are affiliated to universities. Affiliate campuses are further categorized into private and community; private campuses are controlled managed by private organization under the rules and regulations of the concerned university, community campuses are controlled and managed by the stakeholders of the community with non-profit motive under the rules and regulation of the concerned university.

The major faculties of the universities are management, education, humanities and social sciences (HSS), science and technology (S&T), engineering, medicine, law, Sanskrit, Buddhism, Agriculture, Forestry, Veterinary Science. Most of the faculties have several programs for bachelor and master's level of study; some faculties have MPhil and PhD programs also.

	KAHS	0	1	0	1	-	-
Total		532	98	777	1,407	188,295	361,077

Table 2.1 shows that there are nine full universities and four medical academies, 1407 campuses with 361077 students. Among 1407 campuses 98 are constituent, 532 are community and 777 are private. Only three of the nine universities (TU, PU and NSU) have campuses of all three types. Other institutions don't have any community colleges.

**Table 2.2 Number and Share of Campuses of Universities and Medical academies**

University	Number_of_Campuses	Share (%)
AFU	2	0.14
BPKIHS	1	0.07
FWU	1	0.07

PAHS	1	0.07
PokU	62	4.41
PU	131	9.31
TU	1,161	82.52
Total	1,407	100

From table 2.2 it is seen that TU is a huge university with responsibility of managing 1161 campuses. FWU, MWU are newly established universities and they have not given any affiliation to any campuses till date. They are running programs in their own university via central departments.

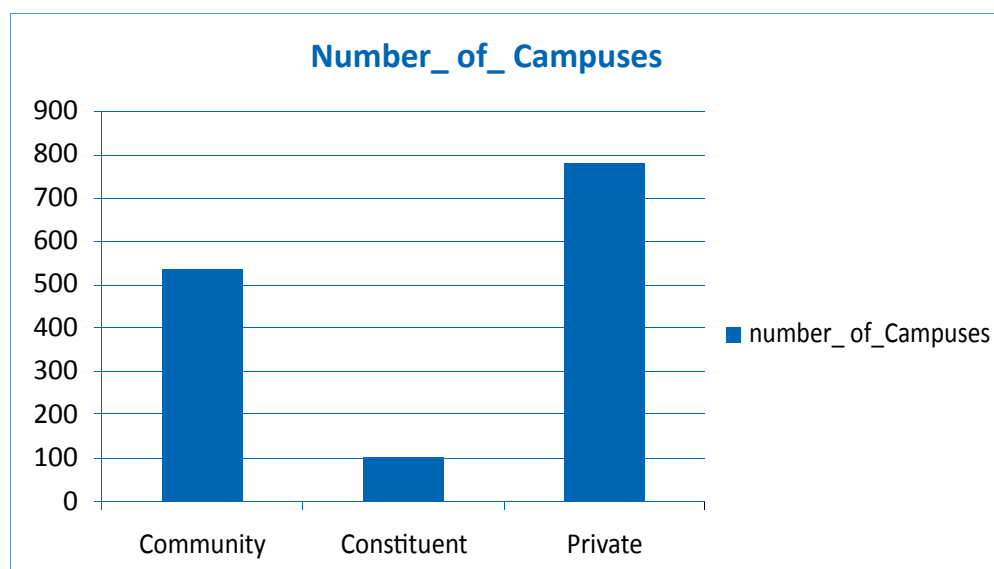

**Figure 2.1 Number of campuses for each universities.**

Four	124	8.81
Seven	96	6.82
One	196	13.93
Five	197	14
Two	126	8.96
Three	612	43.5
Total	1,407	100

From table 2.4 shows that province number three has huge number of campuses than other provinces and province six has least number of campuses. Figure 2.3 shows that the number of campuses compared to population size does not seem to be even. There is no much difference between the size of population between province three and province two but there is huge difference in the number of campuses between these two.

**Figure 2.3 share of campuses vs. share of population**

**Table 2.5 Number of campuses of universities in different levels of study**

AFU	2	2	0	2	0	6
NAMS	0	1	0	0	0	1
Total	1,270	258	4	9	3	1,544

From table 2.5 it is seen that there are many campuses with Bachelor level of study than master level of study. The total number of bachelor level campuses is 1270 and total number of master level campuses is 258. Some of the campuses have both bachelor and master level of programs.

Total	196	126	612	124	197	56	96	1,407

From table 2.7, it is seen that province three has highest number of campuses in all three types of campuses and province six has the lowest number of campuses in all three types of campuses.

## SECTION -3

# Enrollment in HE

The number of students enrolled in different campuses and central departments of different universities in year 2015/16 is 361,077. The share of students for TU is 78.78%; PokU, PU, KU have 7.2%, 6.5%, and 4.6% share of students respectively. Other universities and medical academies have less than 1% student enrollment.

**Table 3.1 Student enrollment in different universities**

Table 3.2 shows that private campuses have more students than community and constituent campuses. But the number of students for constituent campuses very big if the number of campuses is considered. The constituent campuses have only 98 campuses which are very less compared to the number of community (532) and private (777) campuses.

Table 3.3 shows that huge number of students is enrolled in management and education faculties; management faculty has more than 42 percent students and education faculty has more than 24 percent students. The share of students in other faculties is less than 10 percent.

Bachelor, master are the two major levels of study offered by the universities. PhD level of study is provided by TU, KU, LBU, NSU and LBU.

**Table 3.4 Student enrollment in different level of education**

According to table 3.4, the share of students is very low in master and upper levels of study compared to bachelor level. The share of students in the bachelor level is more than 88 percent and the share of students in the master level is less than 12 percent. Also, female enrollment is less in master level compared to bachelor level of study.

Table 3.6 shows that management and education are the two major faculties from the student enrollment perspective as these two faculties have huge number of student enrollment; these two faculties include more than 60 percent students of the total enrollment. Number of students in Science and Technology, Humanities and social Sciences, Medicine and Engineering is very less compared to management and education faculties. Enrollment of students in Forestry, Agriculture, Animal Sciences, Veterinary and Fishery is very low.

Nepal is divided into three ecological belts, they are Hill, Mountain, and Tarai.

**Table 3.7 Number of students in each ecological belts**

Tarai	66,256	58,085	124,341	34.44
Total	188,295	172,782	361,077	100

Huge number of students is seen to be enrolled in the Hill ecological belt from table 3.7 than other two belts. Very few students are enrolled in Mountain belt. The distribution of campuses is very high in Hill and Tarai. There are 832 campuses in Hill, 502 in Tarai and only 73 campuses in Mountain.

# Gender Parity Index

**G**ender Parity Index (GPI) tells us about the access of girl students to higher education. It is one of the most important indicators which is used to measure the participations of girls' in higher education. GPI in higher education is expressed as the ratio of the number of girls to the number of boys enrolled in higher education. A value of near one indicates equality, less than 1 disparity in favor of boys, and a value larger than 1 means disparity in favor of girls.

In 2015/16, the GPI in higher education enrollment in Nepal is 1.09, which means there is almost equality in the girl and boy enrollment.

**Table 4.1 GPI of the universities**

# Pass Rate

This section presents pass percentage (rate) of some of the universities, type of campuses of TU, faculties of TU. The pass rate is calculated using data provided by the examination divisions of the concerned universities. Efforts were made to present overall pass rate of the universities but due to the unavailability of most of the universities exam data it was not possible. The number of regular students appeared and passed in the particular year is taken as the basis for calculating the pass percentage.

**Table 5.1 Pass Rate of Three Universities**

University	Bachelor	Master	Average
TU	26.61	61.8	27.97
LBU	71.76	55	63.21
BPKHIS	92	94.36	92.95

Table 5.1 shows the pass rate of three universities in bachelor and master level of study. Data about exam from other universities were not available so pass rate of only three universities is provided here. The pass rate in master level of study of TU is very good compared to bachelor level of study.

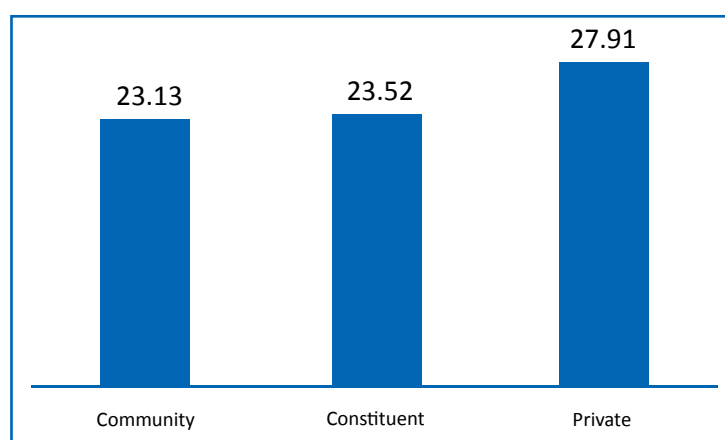

**Table 5.2 Pass Rate in different faculties of TU in Bachelor and Master Level of study**

# Graduates

Due to various reasons, complete and updated data of the graduates of all the universities are not available. It was not possible to find the exact data on the number of graduates other than to consider the grace lists of the universities as it is the only authentic source of the data. But the grace lists include only those graduates who have applied to attend the convocation. Thus, these lists too, do not offer the exact information.

**Table 6.1 Number and share of graduates in different universities**

PokU	4,464

Education	31,408
HSS	15,927
Law	857
Management	27,237
Others	7,994

**Figure 6.2 Share of graduates in different faculties**

From section three it is seen that management, education, humanities and social sciences faculties have large share of student enrollment, considering this fact the higher share of graduates is seen in these same faculties from the table 6.2; 37.65% graduates are from education faculty, 32.65% students from management faculty, 19.09 from humanities and social sciences.

# Gross Enrollment Ratio (GER)

The United Nations Educational, Scientific and Cultural Organization (UNESCO), describes 'Gross Enrollment Ratio' as the total enrollment within a country in a specific level of education, regardless of age, expressed as a percentage of the population in the official age group corresponding to this level of education.

In this context, six year age group span (19-24) is used to see the enrollment in the higher education system of Nepal as most of the students in Nepal are seen to join bachelor level at the age of 19. Students of the 19-22 age groups are bachelor's level and 23-24 age groups are at master's level.

# Public Financing for Higher Education

Universities of Nepal receive financial support from the government through the Ministry of Education and it is channelized via the University Grants Commission. However, the medical academies receive the financial support for higher education directly from the Ministry of Health and Population. The allocation of the fund to the universities, however, depends on the nature of the university.

**Table 8.1 Budget provided to universities in year 2015/16**

# Teachers in Higher Education

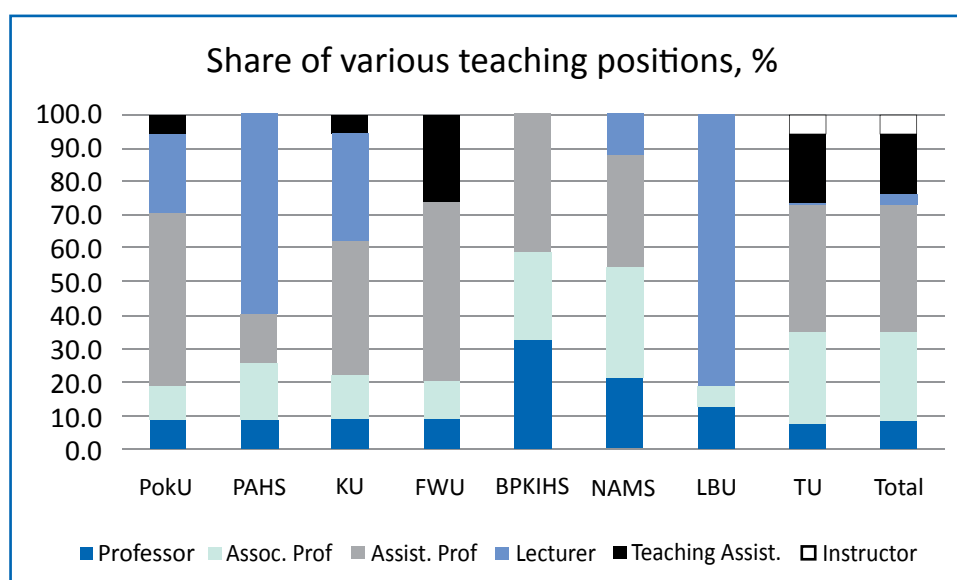

This section provides information about the number of teachers in the constituent campuses the universities. The teachers of Universities are categorized in different levels according to the experience, research publications, and degree of the teachers. The five categories of teachers in the order of decreasing status are:

- Professors
- Readers/Associate Professors
- Assist. Prof/Lecturer
- Assistant Lecturers
- Others (Including Instructors)

# Student-Teacher Ratios

Student-Teacher ratio (STR) measures the average number of students per teacher. It is calculated by total number of students divided by total number of teachers. In this section, Student to Teacher ratio of the constituent colleges of Universities is presented. From the table 10.1 it is seen that some of the universities have very high STR

From the data presented in the table 12.1 following trends are observed:

- The number of campuses is increasing each year. The increase in the number of campuses from 2009, 2010, 2011, 2012, 2013, 2014, 2015 are as follows: 19 percent, 12 percent 4.3, 12.5 percent, 7 percent, 0 percent and 2.7 percent respectively.
- The percentage increased/decreased in the years 2009, 2010, 2011, 2012, 2013, 2014, 2015 are 8.2 percent, 9 percent, 25.6 percent, -18.1 percent -13.8 percent and -8.5 percent.
- The number of female enrollment is increasing every year. The percentage increase in the female enrollment during the years 2009, 2010, 2011, 2012, 2013, and 2014 are 35 percent, 11 percent, 17 percent, 33 percent, -23 percent, 0.6 percent and -8.9 percent respectively.
- System to manage complete and updated information about graduates still needs to be developed in the universities for annual reporting. Currently, grace list is the only source of information regarding graduates. Cases of students who passed the level of education studied but not applying for the graduation certificate in the designated graduation time period are not accounted here.

<b>Affiliated</b>	895	1,012	1044	1180	1271	1271	1309

Table 12.2 shows that trend in the number of three types of campuses. The trend of constituent campuses is steady while the trend of affiliated campuses is in the increasing order with each year. There is no major growth seen in the number of constituent campuses since 2005. In 2005 it was 86 and in 2015 it is 98, with growth of just four campuses. But affiliated campuses are increasing each year; it was 485 in 2005, and 1309 in 2015. It is a huge increment.

# Brief Description of Higher Education System of Nepal

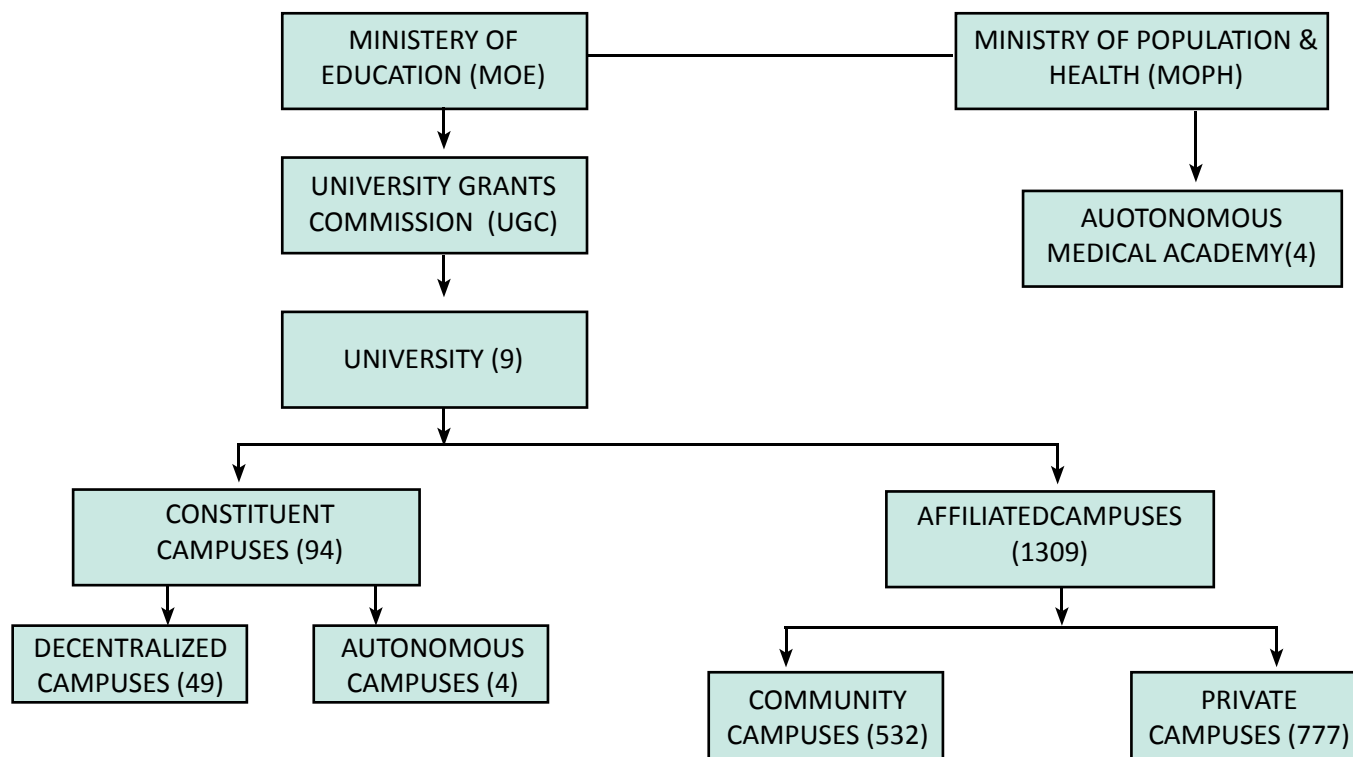

Education imparted after the higher secondary level or the 12th standard or PCL is considered as Higher education in Nepal. At present, there are nine universities—TU, NSU, KU, PU, PokU, LBU, FWU, MWU and AFU and four autonomous academic institutions—NAMS, BPKIHS, PAHS and KAHS that offer higher education in Nepal. The universities have two types of campuses: constituent campuses – campuses directly managed and administered including financial management by the concerned university; and affiliated campuses – campuses whose academic programs are affiliated to a university, but managed and administered including financing either by private individual/organization (private campuses) or by local community stakeholders (community campuses). The academic activities of both types of campuses are governed by the rules and regulations of the concerned university. There are altogether, 1407 campuses in 2015/16 (98 constituent, 532 community, and 777 private) with 361077 students enrolled in different academic programs in higher education.

The campuses follow the courses designed by the affiliating universities and examinations are conducted and processed by OCE of the respective universities<sup>1</sup>. The academic calendar for student enrollment, schedule of exam, publication of results, courses offered and class hours may vary from university to university. The institutions of higher education are at present providing courses on science and technology, education, management, social sciences and humanities, law, engineering, forestry, medicine, agriculture and animal sciences, ayurved and sanskrit. They run their academic programs with annual or semester systems at the bachelor, master, M. Phil., and Ph.D. levels, but some universities also offer programs like post-graduate diploma (PGD). Depending upon the stream and subject, bachelor level programs are of three to five years duration, master level programs of two years duration and PGD and M. Phil. courses generally of 1½ year duration.

# A Brief Description of Universities and Academies

### 1. Tribhuvan University (TU)

**T**ribhuvan University was established in 2016 BS (1959 AD). The central office of TU is situated near Kirtipur, an ancient town in the southern part of Kathmandu valley. TU is the first and largest university of Nepal. The objectives of TU are to produce skilled human resources essential for overall development of the country and to preserve and develop the historical and cultural heritage of the nation.

It comprises of five institutes, four faculties, and four research centers. The institutes are technical in nature and offer several specialized technical courses on: science and technology, engineering, forestry, agriculture and animal sciences and medicine, whereas the faculties offer courses generally in: management, humanities and social sciences, education, law including fine art at the PCL, bachelor, master, M. Phil., and Ph.D. levels. Though there are nine universities in the country, TU holds more than 78 percent of the total higher education enrollment and offers more than 173 academic programs at various levels.

The technical institutes, faculties and research centers under TU are:

#### Technical Institutes

- Institute of Agriculture and Animal Sciences (IAAS)
- Institute of Medicine (IoM)
- Institute of Engineering (IoE)
- Institute of Forestry (IoF)
- Institute of Science and Technology (IoST)

#### Faculties

- Faculty of Humanities and Social Sciences
- Faculty of Management
- Faculty of Law
- Faculty of Education

#### Research Centers

- Centre for Economic Development and Administration (CEDA)
- Research Centre for Educational Innovation and Development (CERID)
- Centre for Nepal and Asian Studies (CNAS)
- Research Centre for Applied Science and Technology (RECAST)

PAHS was established in 2065 BS (2009 AD) in Jawalakhel of Lalitpur district. PAHS is based at Patan Hospital, the major teaching hospital for the academy. The PAHS is dedicated to improving the health status of the people of the country through the production of medical graduates willing and able to provide healthcare services to the disadvantaged population in the remote and rural areas. The academy initially comprised of a medical school, which began to teach MBBS students in 2009. PAHS has planned to open a school of nursing, a school of allied health sciences and a school to train other professionals in the health sector in near future.

One of the goals of PAHS is that its graduates will not only provide the severely needed medical care to the people in the rural area, but will also eventually become leaders in healthcare policy with dedication to improve the health of the remote and destitute populations of Nepal. Furthermore, PAHS plans to serve as a model for innovative medical education in developing countries, which can be replicated elsewhere.

### 10. Mid Western University (MWU)

Mid-Western University (MWU) is an autonomous and public institution of higher learning with the mission to serve the people of Nepal and enrich the global learning community by extending the advantages of higher education. Established by the Government of Nepal with a Parliament Act on June 17, 2010 A. D. under the concept of multi-university system, Mid-Western University is a state supported institution, founded on land donated by the Government of Nepal. The constituent campuses of the University and the Central Administration Office are located in Birendranagar Municipality, in the District of Surkhet, Nepal. Although Mid-Western University is still in the making and has a long way to go before becoming fully operative, the University gathers a tremendous political support from the existing parties and above all enjoys wide enthusiastic participation and support of the local people.

### 11. Far Western University (FWU)

Far Western University (FU) was established in 2010 through an Act of Parliament as a government funded university. The central office of the university is located at Bhimdatta Municipality of Kanchanpur district.

Since its inception, FU has been striving to fulfill its responsibility of making higher education accessible to the people of this region.

The university envisages seven Faculties covering different academic areas. However, the University currently offers bachelors degree (B.Ed) and Masters program (M.Ed) in faculty of education, bachelors degree (B.A) and Masters program (M.A) in faculty of humanities and social sciences, bachelors degree (BBS/BBA) and Masters program (MBM) in faculty of Management at the Central Campus formally known as Siddhanath Multiple Campus, Mahendranagar. The university offers Bachelor of Engineering (BE Civil) program under faculty of engineering and Bachelor of Science (B.Sc) and Bachelor of Computer Science and Information Technology (BScCsit) under the faculty of Science and Technology. The University is planning to affiliate various program in Agriculture, Science & Technology, Engineering, Health Sciences, Optometry and Ophthalmology.

### 12. Agriculture and Forestry University (AFU)

Agriculture and Forestry University (AFU) is the first State-owned and non-affiliating university of Nepal, established in accordance with the Agriculture and Forestry University (AFU) Bill enacted by the Parliament in 2010. Accordingly,

the constituent campuses of Tribhuvan University - the Agriculture Campus at Rampur (Institute of Agriculture and Animal Sciences - IAAS) and the Forestry Campus (Institute of Forestry - IOF) at Hetauda together with Dean's Office IAAS Rampur were merged, and Agriculture and Forestry University was established in Rampur, Chitwan.

The university aims at producing skilled and competent human resources required to promote education, research and development in agriculture, livestock, veterinary science, fisheries, forestry, rural social sciences, and allied disciplines in agriculture. It also aims at contributing to all-round development of agriculture, livestock and forestry which would raise the socio-economic conditions of rural people through quality teaching, research and extension.

## ANNEX -4

# Report Preparation

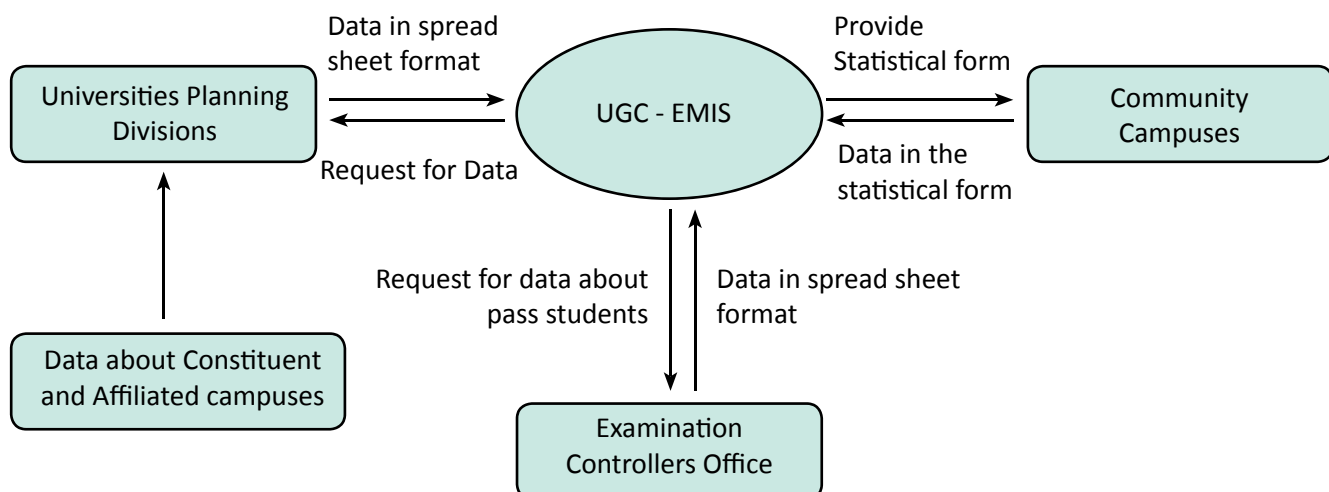

To prepare this report required data were collected from different sources: Universities, Office of the Controller of Examination, campuses etc. Tools used to collect data included:

- Statistical forms
- Emails
- Phone calls
- Personal visit to sources

The provided data were in tabular format in paper or in spread sheet.

- Those data were inserted into the standard UGC spread sheet format.
- From spread sheet those data were uploaded to database using databasetool. (Data from spread sheet were uploaded to database as there was not software developed to insert data to the database.)
- As there were noise, redundancies in data, effort to clean those noise and redundancy were made as much as possible, but even how much effort were used still there remained some redundancies. After cleaning data, aggregated table was generated (one campus was having more than one program, different number of students in each program so it was necessary to sum total number of students for each campuses).
- Then from that aggregated table, summary tables required to prepare this report is generated.
- Those summary tables were then analyzed and described manually and incorporated into the report.

<sup>1</sup> The indicators identified during the implementation of Second Higher Education Project EMIS component supported by the World Bank to develop and establish Higher Education Management Information System (HEMIS) in UGC, universities, and their affiliated campuses.

**Definition of key Terminologies/Indicators**

**Gender parity index (GPI):** Ratio of the female-to-male value of a given indicator. GPI value of 1 indicates parity between sexes; a GPI less than 1 indicates a disparity in favour of boys; whereas a GPI greater than 1 indicates a disparity in favour of girls.

$$\text{GPI} = \text{Female enrollment} / \text{Male enrollment}$$

**Gross enrollment ratio (GER):** Number of students enrolled in tertiary education, regardless of age, expressed as a percentage of the population in the theoretical age group for the same level of education, (19-24) following the secondary school age group.

$$\text{GER} = \text{Total Enrollment} / \text{Population size of eligible students} * 100$$

**Student/teacher ratio (STR):** Average number of students per teacher at the level of education specified in a given academic year.

$$\text{STR} = \text{Number of students} / \text{Number of teachers}$$

**Gross domestic product (GDP):** The sum of gross value added by all resident producers in the economy of the country, including distributive trades and transport, plus any product taxes and minus any subsidies not included in the value of the products.

**Higher Education Institutions:**

**Universities:** Institutes providing bachelor or higher level education.

Constituent campuses: managed directly by concerned university and are the part and parcel of universities.

**Affiliated campuses**

Educational institutions are defined as entities that provide instructional or education-related services to individuals and other education institutions.

Higher Educational institutions are mainly classified as either constituent or affiliated (community and private) campuses according to whether a public agency or private entity has the ultimate power to make decisions concerning the institution's affairs.

An institution is called **constituent campus** if it is: controlled and

An institution is called **affiliated campus** if it is: controlled and managed by non-governmental organization (e.g. a church, trade union, local community or private business enterprise) and its academic programs are affiliated to a university; the affiliated campuses are further classified in the category of **private campuses**: - campuses that are controlled and managed by private organization under the rules and regulation of the concerned university. These types of campuses are privately funded for profit and **Community campuses**: campuses that are controlled and managed by community stakeholder under the rules and regulation of the concerned university.

**Public expenditure on education:** Total current and capital expenditure on education by local, Provincial and national governments, including municipalities (household contributions are excluded). It covers public expenditure for both public and private institutions. Current expenditure includes expenditure for goods and services that are consumed within a given year and have to be renewed the following year, such as staff salaries and benefits; contracted or purchased services; other resources, including books and teaching materials; welfare services; and items such as furniture and equipment, minor repairs, fuel, telecommunications, travel, insurance and rent. Capital expenditure includes expenditure for construction, renovation and major repairs of buildings, and the purchase of heavy equipment or vehicles.

**Public expenditure on higher education as a percentage of GDP:** Current and capital public expenditure on education at every level of administration, i.e. central, Provincial and local authorities, expressed as a percentage of the Gross Domestic Product. It measures the proportion of national income allocated to higher education.

**Public expenditure on higher education as a percentage of total government expenditure:** Total public expenditure on education at every level of administration, i.e. central, Provincial and local authorities, expressed as a percentage of total government expenditure on all sectors (including health, education, social services etc). It measures the share of public expenditure devoted to education in a given year relative to the perceived value of other public spending. Therefore, it accesses the priority that government place on education compared to other sectors.

**Orientation of higher educational programmes:**

**General education:** Education which is mainly designed to lead participants to a deeper understanding of a subject or group of subjects, especially, but not necessarily, with a view to preparing participants for further (additional) education at the same or a higher level. Successful completion of these programmes may or may not provide the participants with a labor market relevant qualification at this level.

**Technical education:** Education which is mainly designed to lead participants to acquire the practical skills, know-how and understanding necessary for employment in a particular occupation or trade or class of occupations or trades. Successful completion of such programmes lead to a labor-market relevant vocational qualification recognized by the competent authorities in the country in which it is obtained (e.g. Ministry of Education, employers' associations, etc.).

**Enrollment:** Number of students enrolled at a given level of education, regardless of age.

**Entrance age (official):** Age at which students would enter a given programme or level of education, assuming they had started at the official entrance age for the lowest level, studied full time throughout and progressed through the system without repeating or skipping a grade. The theoretical entrance age to a given programme or level may be very different from the actual or even the most common entrance age.

**Equity:** In education, the extent to which access and opportunities adults are just and fair. This implies reduction of disparities based on gender, poverty, residence, ethnicity, language and other characteristics.

**Graduate:** A person who has successfully completed the final year of a level or sublevel of education. In some countries completion occurs as a result of passing an examination or a series of examinations. In others it occurs after a requisite number of course hours have been accumulated. Sometimes both types of completion occur within a country.

**Private enrollment:** Number of students enrolled in institutions that are not operated by public authorities but controlled and managed, whether for profit or not, by private bodies such as non-government organizations, religious bodies, special interest groups, foundations or business enterprises.

**Community enrollment:** Number of students enrolled in institutions that are controlled and managed by public authorities or agencies (national/federal, state/provincial or local), whatever the origins of their financial resources.

**Teachers/teaching staff:** Number of person employed full time or part time in an official capacity to guide and direct the learning experience of pupils and students, irrespective of their qualifications or the delivery mechanism, i.e. face-to face and/or at a distance.

**Campus size:** Number of students per campus.

## ANNEX -7

# Introduction of UGC

### University Grants Commission

**T**he University Grants Commission (UGC) was established after the implementation of the multi-university concept in Nepal. The UGC Act was approved by the Parliament on November 22, 1993, which started functioning from 1994. UGC is responsible for allocation and disbursement of grants to the universities and their campuses, regulating their activities for quality assurance, coordinating universities for mutual cooperation, and formulating policies and programs on the establishment of new universities.

### Main Functions of UGC

- Formulate policies on allocation of government grants to universities and higher education institutions.
- Disburse grants to universities and make recommendations to the government for the grants provisions.
- Award research grants, scholarships, and fellowships.
- Take measures necessary to determine and maintain the criteria and standards of higher education.
- Formulate programs and policies necessary for the promotion and enhancement of the quality of higher education.
- Advise the Government of Nepal on the establishment of new universities.
- Make necessary arrangements for the exchange of facilities and fellowships between universities and educational institutions within and outside Nepal.
