PREFACE

Following the Educational Quality Assurance and Accreditation Regulations, 2074, the University Grants Commission (UGC) Nepal has formed Higher Education Quality Assurance and Accreditation Council (HEQAAC), as a functionally autonomous body under the UGC and also issued Higher Education Quality Assurance and Accreditation Directives, 2018 (2074) to manage its activities. This is the first annual report of HEQAAC published to inform all stakeholders about its status and activities. This annual report consists of five parts. Part I covers the information on QAA context, system and structure in Nepal; Part II presents annual QAA activities, Part III deals with concerns on key issues, challenges and way forward of the QAA system and Part IV discusses the future plan. The last part of the report lists different supporting activities completed so far.

Quality of higher education is a global concern today. Higher Education Institutions need to maintain their quality in order to permeate through competitive environment and sustain. Systems are developed to assure quality with the approach emphasizing on quality self-assessment and peer review for validation and quality accreditation by authorized agency. Regular quality audit, monitoring and feedback for improvements are essential measures for continuous enhancement of quality status of HEIs.

Quality Assurance and Accreditation (QAA) system was introduced in Nepal in 2007 AD under the Second Higher Education Project (SHEP 2007-2014), a priority project of the Government of Nepal supported by the International Development Association (IDA) and implemented by the University Grants Commission (UGC) along with Tribhuvan University and Student Financial Assistance Fund Development Board. Following successful piloting of the system in the SHEP period, and on the basis of its positive attributes regarding higher education reform, especially in transforming higher education institutions the Higher Education Policy of Nepal endorsed by the Government of Nepal in 2015 has emphasized on QAA as one of the major focuses of higher education reforms, making it gradually mandatory for all institutions of higher education in the country. University Grants Commission is currently implementing Higher Education Reforms Project (HERP, 2015-2020) designed to support implementation of the higher education policy also with the financial assistance of the IDA. One of the core components of the project is to help strengthen and expand the system of QAA by establishing a national system of accreditation. Preparation of regulatory framework and guidelines and setting up a functionally autonomous system of Higher Education Quality Assurance and Accreditation Council (QAAC) is a step in this line and publication of this annual report is one of the attributes of the system development.

Currently, Quality Assurance and Accreditation (QAA) has been taken as a mission for improving quality of higher education in Nepal. The UGC intends to ensure that all higher education institutions in the country are in the process of QAA assessment for accreditation by the next five years.

On behalf of HEQAAC, I would like to express thankful appreciation to all those who have contributed to the development of the QAA system in the country. We would specially like to acknowledge the contributions of the Technical Committee (TC) members, and the support of the Peer Reviewers including the foreign experts. Special acknowledgement also goes to the HERP Technical Adviser Prof. Hridaya Ratna Bajracharya for his contributions since inception of the system establishment. We would like to extend our sincere thanks to National Assessment and Accreditation Council of India, the Asia Pacific Quality Network, and International Network for Quality Assurance in Higher Education for their kind cooperation and support. We would also like to express our grateful appreciation to UGC members for the establishment and execution of the system. High appreciation and thanks go to UGC administration and management including all the divisions and units for their kind cooperation and support. Last, but not the least, thanks to all the staff working at QAA Division for their commendable efforts.

Prof. Bhim Prasad Subedi, PhD
Chairperson, HEQAAC
February 2019

ABBREVIATIONS/ACRONYMS USED IN THE REPORT

APQN	Asia Pacific Quality Network
AFU	Agriculture and Forestry University
DLI	Disbursement Linked Indicator
EMIS	Education Management Information System
FWU	Far-Western University
HEI	Higher Education Institutions
HERP	Higher Education Reforms Program
HEQAAMIS	Higher Education Quality Assurance and Accreditation Management Information System
IDA	International Development Agency
INQAHE	International Network for Quality Assurance in Higher Education
KU	Kathmandu University
LBU	Lumbini Bauddha University
LoI	Letter of Intent
MoEST	Ministry of Education, Science and Technology
MWU	Mid-Western University
NHEQAAB	Nepal Higher Education Quality Assurance and Accreditation Board
NSU	Nepal Sanskrit University
PokU	Pokhara University
PRT	Peer Review Team
PU	Purvanchal University
QAA	Quality Assurance and Accreditation
HEQAAC	Higher Education Quality Assurance and Accreditation Council
QAAC	Quality Assurance and Accreditation Committee
QAAD	Quality Assurance and Accreditation Division
SHEP	Second Higher Education Project
SSR	Self Study Report
TC	Technical Committee
TU	Tribhuvan University
UGC	University Grants Commission

SECTION I**THE CONTEXT****INTRODUCTION**

The system of Quality Assurance and Accreditation in higher education was formally adopted in Nepal through Second Higher Education Project (SHEP) in 2007 as a project granted and technically supported by International Development Agency (IDA)/The World Bank. University Grants Commission (UGC), the implementing agency of SHEP, formed a 21 member Quality Assurance and Accreditation Committee (QAAC) under the Chair of UGC Chair and established a division to operate the QAA related works formally. Ten years have passed since then and the system has been accepted by the stakeholders as a necessity today.

Initially, the QAA system was introduced on formative basis in nine nationally selected "Scheme A" campuses under SHEP, by providing them financial and technical support from QAAD of UGC. Balkumari College, a community based institution from Bharatpur, Chitwan was the first to receive the accreditation status in July 2009.

The encouraging progress made by the campuses under Scheme-A created interest and enthusiasm in many other community campuses selected for the reform grants program under Scheme B, C and D for entering in to the QAA process. On request of these campuses, UGC extended the QAA program for community campuses under Scheme B, C and D and invited LoI from them (UGC, 2014/015).

Presently, the QAA system is widely accepted by the HEIs in Nepal as a new experience of transformation. Awareness of HEIs towards the QAA system has increased and their participation in this process is increasing day by day. As per the data maintained in QAAD, 314 institutions have formally participated in this process by submitting their Letter of Intent (LoI) and are moving in various stages. Out of 314 institutions, 87 have already submitted SSR to QAAD and the SSR of 19 institutions is under review by Technical Committee (TC), 12 PRT have been formed and pre-visit assessment has been conducted in 25 institutions with 5 already completed the QAA

cycle. Institutions in these stages are much likely to be accredited sooner in comparison to the institutions that are to submit their SSR. Till the date, 26 institutions are already awarded the certificate of accreditation.

Since the ongoing Higher Education Reforms Project (HERP) has major thrust of 'Establishing the Quality Assurance and Accreditation System' as required by Disbursement Linked Indicator (DLI) of Project Agreement Document (PAD), initiatives are being taken in this line. The QAA system's regulations (Educational Quality Assurance and Accreditation Regulations, 2074) has been approved by Ministry of Education and the directives (Higher Education Quality Assurance and Accreditation Directives, 2074) has already been developed and approved by UGC. With these guiding documents in hand, the QAA system is expected to be more systematic, organized and functional. This gradual progress is expected to contribute achieving the goal of establishing a functionally autonomous legislative body, namely; Nepal Higher Education Quality Assurance and Accreditation Board (NHEQAAB).

STRUCTURE OF QAA SYSTEM IN NEPAL

The Higher Education Quality Assurance and Accreditation Council was recently transformed and updated as per 'Educational Quality Assurance and Accreditation Regulations, 2074' with additional autonomy that changed its earlier status of a Committee into Council. The Council holds more power and autonomy in terms of setting quality standards and indicators. However, the Council is still working under the University Grants Commission (UGC) Nepal. Higher Education Quality Assurance and Accreditation Council (HEQAAC) is a functionally autonomous body established to assess and conduct the overall aspects of quality concerns in higher education of Nepal under the umbrella of University Grants Commission (UGC). The 11 member Council is constituted with experts nominated by UGC and also representatives from concerned professional Councils and MoEST as per the provision of Education Quality Assurance

and Accreditation Regulations approved by the Government of Nepal on 07 Baishakh, 2074.

HEQAAC has been more functional and equipped since the implementation of the Educational Quality Assurance and Accreditation Regulations. The Council has also developed its working guidelines, which have created a space for its functional autonomy to operate more systematically. HEQAAC is currently undergoing the process of re-defining the quality standards and indicators, developing a quality framework, re-adjustment in the eligibility criteria, and formation of Peer Review Teams (PRTs) for the assessment of participating higher education institutions. The Council is mainly responsible for taking policy decisions related to higher education quality concerns and issues, and developing related standards and procedures as well as the criteria and indicators for quality assessment.

Since QAA system is being established in Nepal, a formative approach has been adopted to bring HEIs in this process. Awareness and orientation,

facilitation and counseling activities have been conducted to this effect.

As per the stated regulations, the number of members (22) in the previous committee has now been reduced (11) to the Council, which is headed by the Chair of UGC. The Composition of the HEQAA Council is as mentioned below:

Chairperson	Chairman, UGC
Members	Member Secretary, UGC
	Three prominent professors nominated by UGC as experts
	Four representatives selected from professional councils (<i>See Appendix VII</i>), nominated by UGC
	Joint Secretary, Ministry of Education, Science and Technology (MoEST)
Member Secretary	Director, QAA Division

Based on the provision of Regulations, 2074, UGC has formed the 11 member Higher Education Quality Assurance and Accreditation Council. The full body of the functional during the year is as below:

SN	Name of the Member	Designation	Institutional Involvement
1	Prof. Dr. Parashar Pd. Koirala	Chairperson	Chairman, UGC Nepal
2	Prof. Dr. Dev Raj Adhikari	Member	Member Secretary, UGC Nepal
3	Prof. Dr. Upendra Pradhananga	Member	Retired Professor, TU
4	Prof. Dr. Bharat Jha	Member	VC, Rajarshree Janak University
5	Prof. Dr. Kushum Shakya	Member	Head of the Department, Central Department of Economics, TU
6	Prof. Dr. Dharma Kanta Banskota	Member	Chairperson, Nepal Medical Council
7	Prof. Dr. Satya Narayan Shah	Member	Chairperson, Nepal Engineering Council
8	Prof. Goma Niraula	Member	Chairperson, Nepal Nursing Council
9	Dr. Keshav Dhvaj Joshi	Member	Chairperson, Nepal Pharmacy Council
10	Mr. Surya Prasad Gautam	Member	Joint Secretary, Ministry of Education, GoN
11	Dr. Shyam Prasad Lohani	Member Secretary	Director, QAA Division, UGC

Technical Committee

A 7 member technical committee (TC) has been formed to work under the council, which is mainly responsible for review and approval of the Self Study Reports (SSR) submitted by the participating institutions to QAAD. Based on the review of the committee, feedback is provided to

the participating higher education institutions to incorporate in their final SSRs. Peer Review Teams (PRTs) are formed for the review of the SSR of the institutions only after their SSR is approved by the TC with desired level of standard. The composition of the Technical Committee is as mentioned below:

SN	Name of the Member	Designation	Institutional Involvement
1	Prof. Dr. Shiba Kumar Rai	Coordinator	Research Director, Nepal Medical College, Kathmandu
2	Prof. Dr. Basu Dev Kafle	Member	Retired Professor, TU
3	Prof. Dr. Chandralal Shrestha	Member	Retired Professor, TU
4	Prof. Dr. Mana Prasad Wagle	Member	Retired Professor, KU
5	Prof. Dr. Sunity Hada Shrestha	Member	Retired Professor, TU
6	Prof. Dr. Panna Thapa	Member	Controller of the Examination, KU
7	Dr. Shyam Prasad Lohani	Member Secretary	Director, QAA Division, UGC

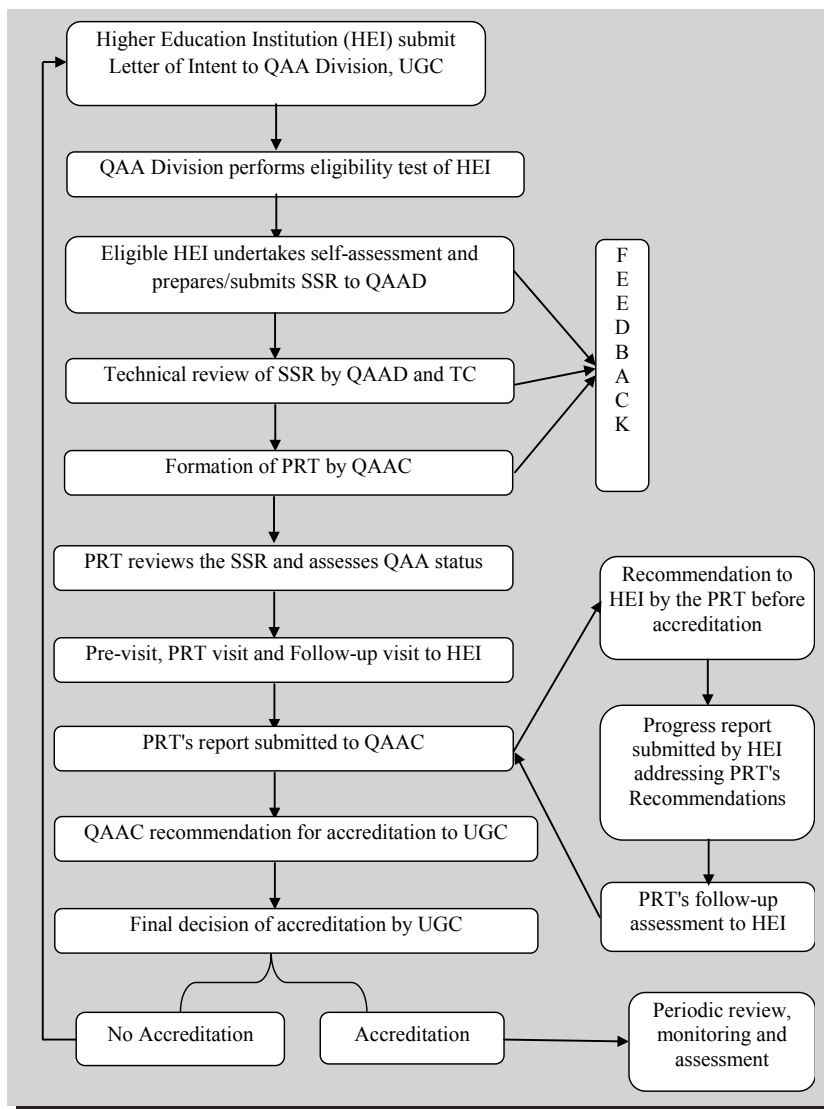

Quality Assurance and Accreditation Division

The Quality Assurance and Accreditation Division (QAAD) works as the secretariat of HEQAA Council to translate and implement the policies and guidelines set by the Council. The division is headed by the Director, who also works as the Member Secretary of the Council as well as the TC. The QAAD is currently equipped with six staff:

one program officer and five senior assistants including two QAA experts as consultant.

Flow Chart for Institutional Accreditation Process

The HEQAA Council has adopted the following process for the institutional accreditation in Nepal:

ACCREDITATION POLICIES OF THE QAA

The important operational policies of QAA in Nepal are:

Policy 1:

Accreditation is a voluntary process for institutions and programs. However, those are not undergoing such process may have to face negative consequences in the long run.

Policy 2:

The HEQAAC defines the generic benchmarks with the involvement of academicians, specialists (experts) and other stakeholders.

Policy 3:

Weightage on each of the generic benchmarks for a particular institution/program are allocated, and guidelines are developed to identify criteria in marking the progress.

Policy 4:

Evaluation of the institutions and programs shall be made, based on the pre-defined generic and specific benchmarks.

Policy 5:

The HEQAAC recommend for any formal decisions on accreditation and its results are based on explicitly published criteria.

Policy 6:

Accreditation procedures for a particular institution/program are designed by the respective unit of the council to ensure the fitness of the institution/program's objective and originality.

Policy 7:

Accreditation processes for a particular institution/program are developed and published two weeks prior to the start of the activities.

Policy 8:

Peer Review Team for a program or institution shall consist of 4 to 6 members, who will be selected from the HE QAAC from "Register of Reviewers". However, concerns of the respective institutions shall be considered to avoid possible conflict of interests. One of the members will be panel coordinator and the other members both

nominated by the council. The secretary will be the staff member of QAAD.

Policy 9:

HEQAAC develops a "Register of Reviewers" for peer review committee based on the pre-defined criteria for reviewers.

Policy 10:

QAAC takes responsibility to avoid the conflict of interest while nominating review member to a particular peer review team. A format will be developed where the panel members are obliged to declare formally to council any matters that could influence or be perceived to influence their ability to serve effectively on the panel. QAAD staff in their role as review member may also experience the same categories of conflict of interest and are obliged to declare any such matters to the Director.

Policy 11:

HEQAAC shall evaluate the particular institution or program putting it in one of the two categories as "**accredited**", or "**assessed and found not qualified for accreditation**".

Policy 12:

HEQAAC publishes accreditation report with wide accessibility to its intended readers. However, if any of the accrediting institutions raise concern on the confidentiality of institutional information such as some personal, institutional or commercial information, it shall be respected with due consideration. Nonetheless, the council publishes the report as agreed between the review panel and the institution on issues of confidentiality. Before finalizing the peer review report, the team also contacts the Campus Chief/Head/CEO of the institution/program and make sure that there are no factual errors in the report.

Policy 13:

HEQAAC publishes an institution's accreditation report approximately after two years of the establishment; the particular institution is required to publish a progress report outlining actions it has taken in response to the recommendations made by the Accreditation Report.

Policy 14:

External observers on review panel will be accepted subject to the agreement of QAAD's Director, the review Chairperson and the institution's/program's representative.

Policy 15:

For participating in peer review team appointed by council, the members of the review panel shall be provided, as decided by the UGC, with airfares, hotel accommodations and an honorarium. In addition, the meeting allowances will be provided for the peer review team members as decided by the UGC.

Policy 16:

Accreditation of institutions/programs should be undertaken on a cyclical basis. The length of the cycle and the review procedures for each cycle shall be clearly defined and published in advance.

Policy 17:

HEQAAC shall produce from time to time summary reports describing and analyzing the general findings of their reviews, evaluations, assessment etc. HEQAAC shall also publish its annual report.

Policy 18:

Various professional councils are functioning in Nepal. For programs within the purview of respective professional councils, they may play a facilitating role to agree on a set of performance indicators. In case if some of the councils will function as accrediting agencies, HEQAAC may function as a recognizing body based on the requirements fulfilled by these agencies. However, this shall be a subject of mutual consent between the HEQAAC and respective councils.

Policy 19:

HEQAAC will define its relationship with other prospective accrediting agencies in the country based on their activities and performance indicators. Such indicators will be defined by HEQAAC as and when required. Linkage with internal accrediting bodies will also be made to enhance the capability of the council.

Policy 20:

HEQAAC recognizes accreditation's public

policy roles on four significant relationships: i) accreditation and government, ii) accreditation and private sector, iii) accreditation and student and general public, and iv) accreditation and universities, institutions, colleges. HEQAAC considers these relationships to be instrumental to fuel for self regulation for quality enhancement and accreditation.

Policy 21

The HEQAAC Review Team members are not permitted to accept gifts from the college/program. Hospitality provided to the Review Team during the visit should be moderate.

GOALS OF QAA IN HIGHER EDUCATION IN NEPAL

The goals of the Quality Assurance and Accreditation (QAA) system in Nepal are to –

- i. provide information to the stakeholders including government, students and employers as to which academic institutions meet the standard for quality provision,
- ii. provide an instrument for comparing bachelor's and master's programs within the country as well as internationally, and
- iii. promote quality improvement at all levels (Program, institution, and university) of higher education system in the country.

APPROACH TO QAA

The approach of QAA considered in the context of higher education in Nepal, is to leverage the quality of higher education in the country through –

- Motivating the institutions to voluntarily participate in the QAA system,
- Periodic evaluation and accreditation of institutions and their academic programs,
- Criterion of inspiring academic environment for the promotion of quality of teaching-learning and research,
- Encouragement for institutional accountability, autonomy and innovation,
- Collaboration with other stakeholders of higher education for quality evaluation, promotion and sustenance, and
- Establishment of the linkage with international agencies of quality assurance and accreditation

SCOPE OF QAA IN NEPAL

The scope of QAA covers quality audit, quality assurance and accreditation based on voluntary participation of various higher education institutions including public and private institutions. There are basically two modes of accreditation in practice:

- i. QAA of bachelor's, master's and other research level programs (Program Accreditation), and

- ii. QAA of the institutions, such as central departments, schools, campuses, academies and universities (Institutional Accreditation).

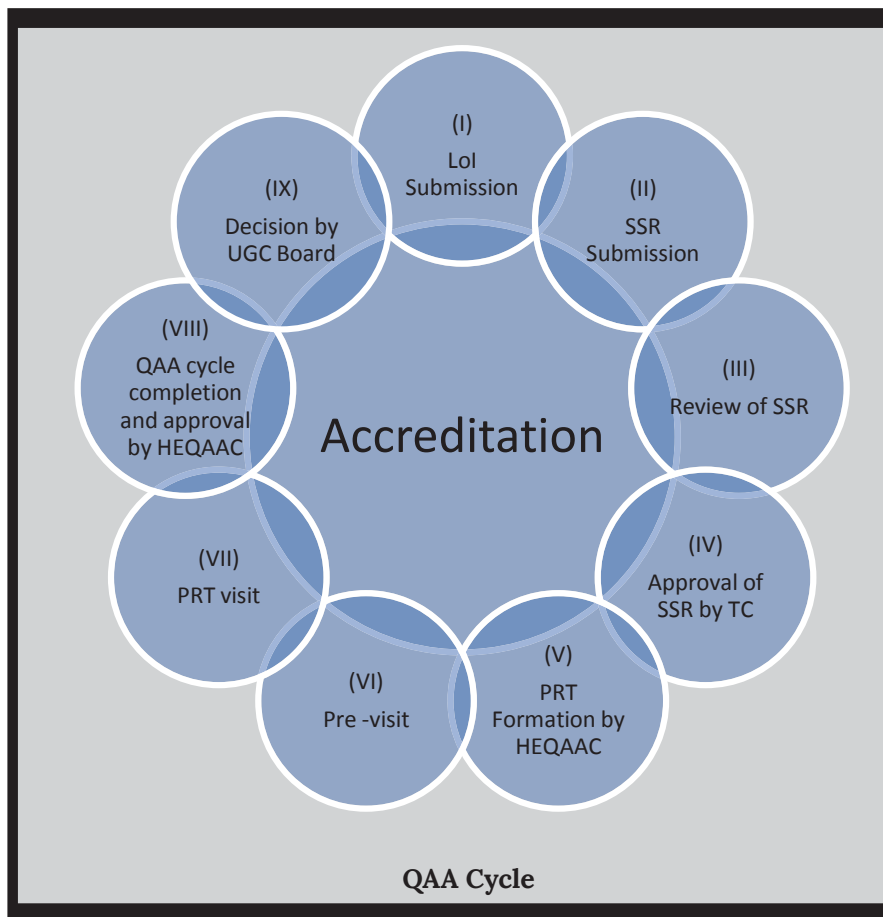

The QAA process starts with quality assurance/audit, which gives the institution information about its (current) status. The institutions/programs with good performance may apply for accreditation. In general, quality product or service is aimed to fulfilling or exceed stakeholder's expectations.

SECTION II

ANNUAL ACTIVITIES

Number of activities has been carried out throughout the year to expedite the pace of QAA process. As the primary objective of HEQAAC is to assess the HEIs of the nation, QAAD remained busy throughout the year mostly on execution of assessment and accreditation activities. Some of the notable activities of QAAD were building the capacity of the institutions through orientation and facilitation and orientation to peer reviewers, conduction of meeting of technical committee and HEQAAC, arrangement of several

pre-assessment and PRT assessment visits and organization of award ceremonies. Gradually, the QAA system is gaining momentum by inviting and increasing the involvement of campuses in this process. Out of total 1408 campuses (EMIS Report, 2015/16, UGC) of Nepal, 314 have participated in the QAA system by submitting Letter of Intent (LoI) to QAAD. Out of the participating number of campuses, 87 are in the post SSR stage. It means various stages have to be passed through up to accreditation after the submission of Self Study Report (SSR).

Comparatively Speaking, community campuses have a significant presence in reaching the final stage of QAA. A total of 18 community campuses are accredited, whereas 4 schools (KU), 2 departments (TU), 3 constituent campuses (one of TU and 2 of FWU) and one private campus

have received the certification of accreditation. Likewise, 4 community campuses and one private campus have completed the QAA cycle. Similarly, 16 community campuses, 3 departments/schools, 5 constituent campuses and one private college are in a stage of pre-visit completion.

Tribhuvan University’s institutions stand ahead of other institutions in terms of participation in QAA process. The data shows that out of 26 accredited institutions, 19 are of TU. Likewise, 4 institutions of TU have completed QAA cycle, 21 institutions have passed the pre-visit stage, PRT has been formed for 9 institutions and 17 other institutions have recently submitted their SSR to QAAD for review.

Kathmandu University owns 4 accredited schools and PRT has been formed for one more School. Similarly, 2 campuses of FWU (earlier affiliated campuses of TU later transformed as constituent of FWU) are accredited. Two other campuses of FWU have completed the stage of pre-visit. The number of accredited PU affiliated (private) campus is one.

In provincial distribution of post SSR status (passing of various stages after SSR submission and before accreditation), the highest number of institutions is from Province No. 3. It has 26 institutions (43%) in post SSR status followed by Province No. 7 with 10 institutions (16%). Likewise, Province No. 1 and 4 have 7 institutions in each in different stages of SSR. Province No.

2 and 5 have 6 and 5 institutions respectively whereas province no. 6 is yet to find its space in post SSR stage.

Provincial distribution of HEIs in post SSR status

Province	1	2	3	4	5	6	7
Number	7	6	26	7	5	0	10

Provincial share in Post SSR status

The first QAA certified HEI of Nepal was Balkumari College from Bharatpur, Chitwan, accredited in 2009 AD. It took another 3 years (2012 AD) for the accreditation of other 5 institutions followed by

the accreditation of 6 institutions in 2013 AD. In 2015, three other institutions were accredited and two institutions in each year respectively in 2016 and 017 followed by 7 in 2018.

Year-wise Accreditation Number

In comparison to the type of HEIs, the share of community campuses in terms of participation in QAA process is high. In the QAA process of HEIs,

42% share goes to community campuses whereas 36% to private and 11% each to constituent and department/ schools.

There is still a huge gap between the number of HEIs and QAA participated institutions. from the list of 1408 institutions, 309 only have submitted LoI for participation in the QAA process. The table shows the comparative status of HEIs at the provincial level:

Number of QAA participant HEIs against total No. of HEIs by Province

Provinces	1	2	3	4	5	6	7
No. of QAA participant HEIs	35	15	156	30	31	18	24
Total No. of HEIs	196	126	613	124	197	56	96

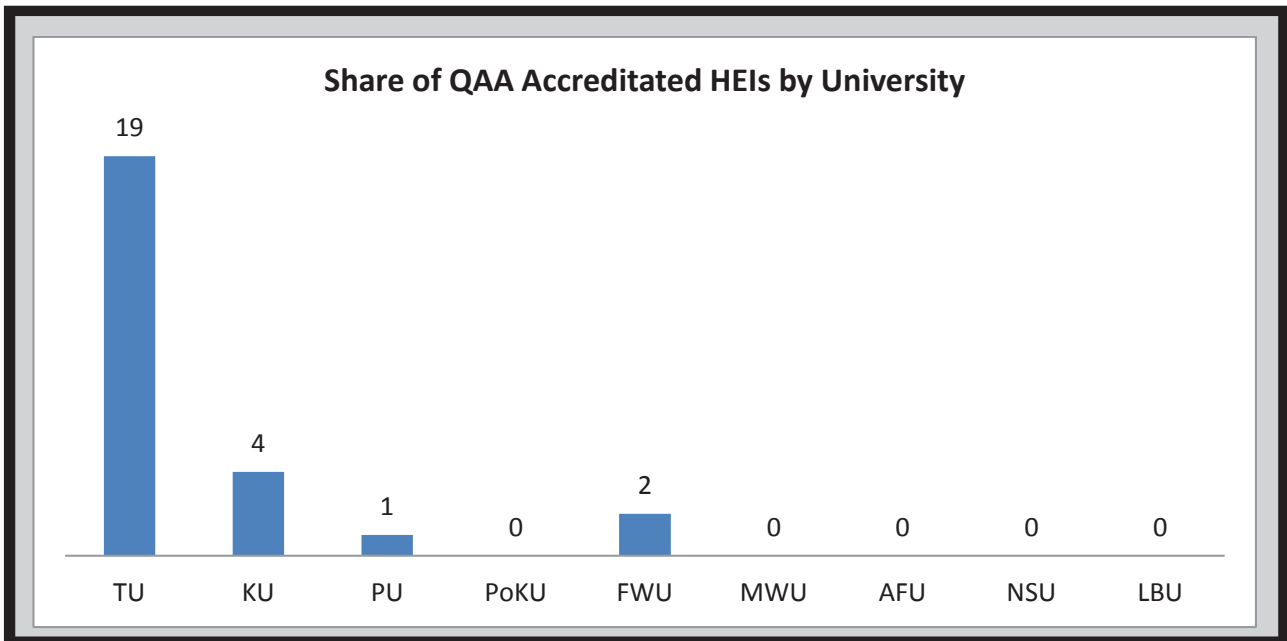

Accreditation

In total, 26 institutions are already accredited including 6 re-accredited for the second cycle of QAA process up to FY 2074/075. In FY 2074/075, 9 institutions were accredited including 6 re-accreditation. As stated earlier the number of accredited community campus is high in comparison to other type of institutions as affiliated 16 community campuses of TU have been accredited with accreditation of only 4 schools of Kathmandu University, 2 Central

departments and one constitute campus of Tribhuvan University, two constituent campuses of Far Western University and one private campus of Purvanchal University (PU).

Altogether 19 HEIs of Tribhuvan University, 4 of Kathmandu University, 2 of Far Western University (their affiliation was under TU during accreditation award and later they became a constituent campuses of FWU) and one of Purvanchal University are accredited from UGC.

By types, 16 are the community campuses, 6 are central department/schools, 3 are constituent and one is private institution that have awarded the accreditation.

Type of Accredited institutions

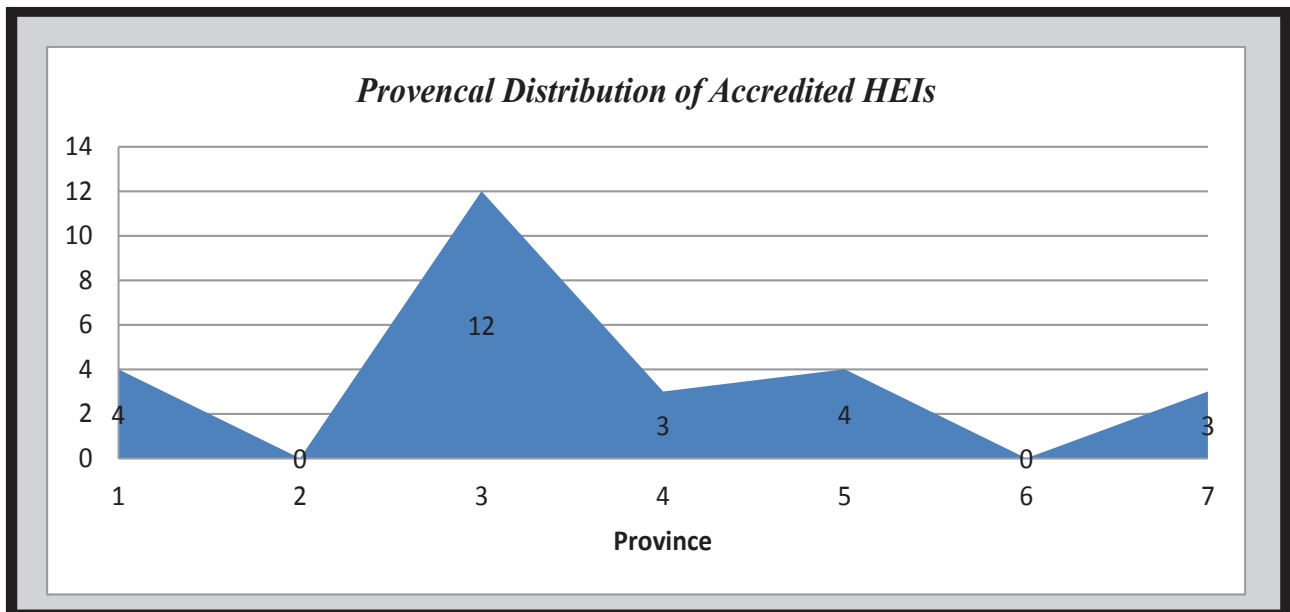

Status	Nature/Type of HEIs			
	Constituent Campus	Central Department/School	Community Campus	Private Campus
Accreditation Awarded	3	6	16	1

Community campuses own the share of 62% whereas department/schools share 23%. Similarly, constituent campuses cover 11% of the share and 4% by private institution.

Looking from the provincial distribution of HEIs, Province No. 3 has the highest number of accredited institutions followed by province No. 1 and 5 with 4 accredited institutions in each. Likewise, Gandaki (Province 4) and Sudur

Paschim (Province 7) have 3 institutions each. Province No. 2 and 6 are overdue when the number of with accredited institutions is taken into consideration.

Peer Review Team Assessment

Thirteen Peer Review Team (PRT) assessment visits were conducted in various institutions in FY 2074/075. The PRT visit is also taken as the completion of QAA cycle. Out of the 13 PRT visits, 6 assessments were done for the second cycle of accreditation and the rest 7 for the first cycle.

Once these institutions succeed in completing the follow up visit, the number of accredited institutions is expected to increase significantly.

Pre - Assessment

All together, 24 institutions are in pre-assessment completion stage. In FY 2074/075, pre-assessment visits were conducted in 17 campuses including

4 in the second cycle of accreditation. These institutions are currently undergoing through a reform process based on the recommendations provided during the pre-assessment visits. Two of them have already submitted their response report to QAAD and sooner, the PRT assessment visit will be conducted in these institutions. Most of these institutions are expected to reach the target of full/final accreditation in the running FY,2075.

Follow - Up

Follow up visits, although not compulsions are conducted in the institutions that have already completed the PRT visit if they feel for such a need. In FY 2074/075, the follow up visits are conducted in four campuses. Progress status on recommendations provided by the PRT during its visit is basically observed during this visit

before taking decision on the accreditation of the campuses.

Orientation/Workshops/Facilitation

Quality Assurance and Accreditation Council is currently promoting the formative process of the QAA system by providing institutions technical support through orientation, workshops and facilitation. Such activities were conducted in 11 institutions based on the need felt by the division itself and as per their demand. Beside this, specific QAAD approaches, orientation, facilitation, monitoring and follow-up activities have been provided through other visiting teams from UGC. The monitoring visit plan and its execution by the Reforms Unit of UGC have been significantly contributed to QAA orientation services provided to the campuses. In addition, two orientations and workshops were conducted for the peer reviewers as well.

SECTION III

KEY ISSUES, CHALLENGES AND WAY FORWARD

Although the QAA system in Nepal is gradually making its space through the structure, orientation and expansion, some key issues and challenges have surfaced on the scene of QAAD/UGC in relation to its functions. The challenges exist at various levels: QAAD/C level, the UGC level, the HEIs level within the QAA cycle, the universities level and the ministerial level. In order to improve the efficiency, effectiveness, and the outcomes of the QAA process, UGC needs to respond to the following issues and challenges.

Major Issues

Time Taken by HEIs to Complete QAA Cycle: It has been observed that the average time taken by the HEIs to complete the QAA cycle is 2 years. This is quite a long time; however considering the level of management competency, quality awareness, and fulfillment of eligibility criteria by most of the HEIs, the time taken by them to complete the process can be understood. In the same vein, lack of sufficient number of skilled human resources at the level of QAAD/UGC has also prolongs the time to complete the QAA cycle. This is one of the major issues that QAAD is currently experiencing.

Sustainability of QAA within accredited HEIs: Sustainability is more a futuristic approach, and does not seem to be an immediate concern for the many. Sustaining the QAA standards and internal quality (audit) mechanisms uphold to 'Quality' in the long run in the qualified/accredited HEIs is a big issue for QAA. A post accreditation follow-up strategy, plan and provision of appropriate resources for sustainability of the QAA system is what UGC may need to work on immediately in the present context.

Major Challenges

Continuity/Sustainability of QAA after the HERP: Currently, the QAA system is operated basically on formative basis by providing institutions a block grant and facilitation and technical support from QAAD. The grant support has been the main reason of attraction in the QAA system to motivate many campuses toward the QAA process. In this background, sustainability of the system even in the absence of funding schemes has remained one of the key challenges. The challenge is how to accommodate the QAA system in the mainstream system with allocation of sufficient regular budget by UGC/GoN to this effect. The need of establishing an

autonomous QAA Board with strong legal/statutory provision may be a milestone to address immediately this challenge.

Increasing Credibility and Integrity of QAA System:

The QAA system of Nepal is gradually transforming itself towards a matured and reliable system from the date of its establishment. The initial practices are in a course of revision reflect the operational changes brought by the system. Taking Nepal's QAA system to a global standard by taking reference of international best practices is to be considered to earn additional credibility.

Strengthening the capacity of Division and its Staff:

At present, the QAAD is handling larger number of institutions than its capacity, which it had in early days of its establishment. At the same time, UGC has made an appeal to all the HEIs of Nepal to participate compulsorily in QAA process within next five years. In fact, this stands as a challenge to QAAD for its implementation. To help the HEIs to timely completion of their QAA activities to provide adequate facilitation and technical support to these institutions in the QAA process, the capacity of the Division is to be strengthened and the staff should be empowered and equipped with recent trends of QAA process.

Meeting International Standards and Norms of Quality Accreditation:

Although UGC has an MoU with NAAC, India for a mutual exchange of experts in relation to QAA process, particularly in the stage of PRT, it is very difficult to gauge the impact of this process as a contribution of this collaboration in skill transfer and capacity building of the QAAD staff. UGC has to develop its skill and capacity to bring it into the international norms and standards of QAA. Although, the MoU with NAAC has outlined the need to exchange experts in relation to QAA process, it seems that only the NAAC experts have been coming to Nepal with no Nepali experts reciprocating the same to gain expertise with NAAC experts in India. Similarly, the agreement of UGC with APQN for exchange of staff for internship arrangements starting February 2013 can be of benefit in capacity building of QAAD but this has brought into friction. The need for developing good number of national experts as QAA specialists and widening cooperation and collaboration with other related agencies remains as a challenge to be addressed by UGC.

Way Forward

Integrating QAA in the Agenda and System of Affiliation Providing Universities: Giving affiliation to new institutions and new programs of the existing HEIs falls under the domain of the universities; therefore it becomes an imperative to bring the QAA concerns within the considerations of the affiliation providing universities. In the absence of a clear regulatory framework that requires the affiliation providers to take the QAA considerations as seriously as a requirement for providing affiliation to new HEIs or to new programs, scaling up the QAA concept and effort among the HEIs of different types will not be possible. In this connection, the condition that a campus needs to be QAA certified in order to be eligible to apply for running the new and professional program, as required by the university may

be a commendable effort. UGC spending resources for QAA for the existing HEIs and universities granting affiliations to new program or new institutions without QAA Accreditation is not a desired act for the QAA initiative under SHEP. So far, any proactive interests from any affiliation providing universities have not been expressed or demonstrated to UGC for internalizing and institutionalizing the QAA process within their operation system.

Ownership by the Universities: Establishing the internal quality assurance system in universities to audit the quality of their affiliated and constituent campuses and departments/schools periodically has to be made a part of the national QAA system. Universities should own the national QAA system requiring their institutions to come under this process.

SECTION IV**PLANS FOR FY 2075/076 (2018/019)****1. Developing a website for HEQAAC**

HEQAAC expects to develop its own website that places all the required information of Quality Assurance and Accreditation system of Nepal in the portal in FY 2075/076. Currently, the QAA related information is disseminated through the website of UGC itself i.e. www.ugcnepal.edu.np with its own website, the council expects a regular flow of information in an organized and detailed way. In the long run, this website will have a unique feature of tracking system, where HEIs will be able to track the status of their file submitted to the Division.

2. Higher Education Quality Assurance and Accreditation Management Information System (HEQAAMIS)

HEQAAC also has another plan for developing software based data recording and maintenance system namely, 'Higher Education Quality Assurance and Accreditation Management Information System (HEQAAMIS)' with its weblink. This will open a space for regular communication

between HEQAAC and participating HEIs with systematic data recording and analysis. data will be more integrated nature and authentic as well as delivery of services will be efficient and effective. Development of this system, which is also included in annual program and budget of UGC, will be started by this year.

3. Digitization of QAA Information

Converting all the files received in QAAD to electronic form and recording these files digitally is another plan. The process has already started. With this process in motion, it is expected that the service delivery system of QAAD will be further effective and efficient.

4. Revision of Documents

HEQAAC has a plan to revise all its working documents. These documents include Comprehensive QAA Framework, LoI format, SSR format, QAA Guidelines, QAA Directives, profile of accredited HEIs and so on.

ANNEXES

Annex- 1 Accredited "Scheme A" Campuses of SHEP

SN	Name of Institution	Address	Date of First Accreditation	Remarks
1	Balkumari College, Chitwan	Bharatpur, Chitwan	22-Nov-09	Accredited for second cycle
2	Damak Multiple Campus, Jhapa	Damak, Jhapa	11-Jan-12	
3	Siddhanath Multiple Campus, Kanchanpur	Mahendranagar, Kanchanpur	11-Mar-12	
4	Lumbini Banijya Campus, Rupandehi	Butwal, Rupandehi	12-Apr-12	
5	Kailali Multiple Campus, Kailali	Dhangadi, Kailali	29-May-12	
6	Makawanpur Multiple Campus, Makawanpur	Hetauda, Makawanpur	29-May-12	
7	Janapriya Multiple Campus, Kaski	Pokhara, Kaski	23-Feb-13	Cycle completed for accreditation of second cycle
8	Sahid Smriti Multiple Campus, Chitwan	Chitwan	26-Jun-13	After the completion of the first cycle, the campus has applied for the second cycle
9	Tikapur Multiple Campus, Kailali	Tikapur, Kailali	30-Dec-13	

Annex-2 List of Accreditation Awarded Institutions (FY 2074 -075)

SN	Cycle	Name of the Institution	Address	Date of Accreditation
1	First	Saptagandaki Multiple Campus	Bharatpur, Chitwan	2074/08/07
2		Mahakavi Devkota Campus	Sunwal, Nawalparasi	2074/09/19
3		Rupandehi Campus	Bhairahawa, Rupandehi	2075/03/03
4		Dibyajyoti Multiple Campus	Bardghat, Nawalparasi	2075/03/03
5	Second	Damak Multiple Campus	Damak, Jhapa	2074/08/27
6		Balkumari College	Bharatpur, Chitwan	2075/03/03
7		Lumbani Banijya Campus	Butwal, Rupandehi	2075/03/03
8		Makwanpur Multiple Campus	Hetauda, Makwanpur	2075/03/03
9		Kailali Multiple Campus	Dhangadi, Kailali	2075/03/03

Annex – 3
List of Peer Review Assessed Institution (FY 2074 -075)

SN	Cycle	Name of Institution	Address	Assessment Dates	Peer Review Team
1	First	Mahakavi Devkota Campus	Sunwal, Nawalparasi	8 -12 October, 2017	Prof. Dr. Ishwar Prasad Upadhyay (Coordinator) Prof. Dr. Sunity Shrestha Hada (Member) Prof. Dr. Bal Mukunda Bhandari (Member) Prof Dr, Kaushik Raval (Member/ Foreign Expert) Dr. Shyam Prasad Lohani (QAA Director) Mr. Narayan Bhandari (QAAD Staff member)
2	First	Janata Multiple Campus	Itahari, Sunsari	11- 15, February, 2018	Prof. Dr. Mana Wagley (Coordinator) Prof. Dr. Shalikram Koirala (Member) Prof. Dr. Indu Acharya (Member) Prof. Dr. Sudha Rao (Member/Foreign Expert) Mr. Narayan Bhandari (QAAD Staff Member)
3	First	Harikhetan Multiple Campus	Birjung, Parsa	26 -30 March, 2018	Prof. Dr. Ishwar Prasad Upadhyay (Coordinator) Prof. Dr. Sunity Shrestha Hada (Member) Prof. Dr. Ram Krishna Vyas (Member/Foreign Expert) Prof. Dr. Ramesh Prasad Bhattarai (Member) Ms. Mamata Prajapati (QAAD Staff Member)
4	First	Triyuga Janata Multiple Campus	Udaypur	7-11 May, 2018	Prof. Dr. Shiba Kumar Rai (Coordinator) Prof. Dr. Sushman Acharya (Member) Prof. Dr. Ram Chandra Dhakal (Member) Prof. Dr. Suraj Prakash Malhotra (Member/Foreign Expert) Mr. Sitaram Bhattarai (UGC Staff Member)
5	First	Babai Multiple Campus	Gulariya, Bardiya	27-31 May, 2018	Prof. Dr. Prem Raj Pant (Coordinator) Prof. Dr. Ranjana Gupta (Member) Prof. Dr. Shiva Sharan Maharjan (Member) Prof. Dr. Himendu Prakash Mathur (Member/Foreign Expert) Mr. Gopal Acharya (QAAD Staff Member)
6	First	Dibyajyoti Multiple Campus	Bardghat, Nawalparasi	8-12 May, 2018	Prof. Dr. Jai Raj Awasthi (Coordinator) Prof. Dr. Kamal Deep Dhakal (Member) Prof. Dr. Indu Acharya (Member) Prof. Dr. Manaharlal Patel (Member/foreign Expert) Mr. Narayan Bhandari (QAAD Staff Member)
7	First	Siddhartha Gautam Buddha Multiple Campus	Butwal, Rupandehi	10-14 July, 2018	Prof. Dr. Basudev Kafle (Coordinator) Prof. Dr. Kamal Deep Dhakal (Member) Prof. Dr. Indu Acharya (Member) Prof. Dr. Kaushik Raval (Member/ Foreign Expert) Mr. Narayan Bhandari (QAAD Staff Member) Ms. Sita Dumre (QAAD Staff Member)
8	Second	Damak Multiple Campus	Damak, Jhapa	10-14 October, 2017	Prof. Dinesh Raj Pant (Coordinator) Prof. Dr. Kusum Shakya (Member) Prof. Dr. Ramesh Prasad Bhattarai (Member) Prof. Dr, PN Gajjar (Member/ Foreign Expert) Dr. Shyam Prasad Lohani (QAA Director) Mr. Gopal Acharya (QAAD Staff Member)
9	Second	Balkumari College	Bharatpur, Chitwan	13 -17 March, 2018	Prof. Dr. Panna Thapa (Coordinator) Prof. Dr. Sushma Acharya (Member) Prof. Dr. Ram Chandra Dhakal (Member) Prof. Dr. Shailendra Nigam (Member/Foreign Expert) Mr. Narayan Bhandari (QAAD Staff Member)

10	Second	Lumbini Baniya Campus	Butwal, Rupandehi	24-28 January, 2018	Prof. Dr. Ishwar Prasad Upadhyay (Coordinator) Prof. Dr. Indu Acharya (Member) Prof. Dr. Muni Raj Chhetri (Member) Prof. Dr. Pratapsinh Chauhan (Member/Foreign Expert) Ms. Mamata Prajapati (QAAD Staff Member)
11	Second	Makwanpur Multiple Campus	Hetauda, Makwanpur	29 Jan – 2 nd February, 2018	Prof. Dr. Prem Raj Pant (Coordinator) Prof. Dr. Indu Acharya (Member) Prof. Dr. Poonam Agrawal (Member/Foreign Expert) Dr. Shyam Prasad Lohani (QAA Director) Ms. Mamata Prajapati (QAAD Staff Member)
12	Second	Kailali Multiple Campus	Dhangadi, Kailali	6 -10 May, 2018	Prof. Dr. Panna Thapa (Coordinator) Prof. Dr. Madhav Raj Koirala (Member) Prof. Dr. Pradeep Kumar Khadka (Member) Prof. Dr. ThumThummuluri Siddaiah (Member/Foreign Expert) Dr. Jagat Krishna Pokharel (Observer, TU IQAC, Director) Mr. Gopal Acharya (QAAD Staff Member)
13	Second	Janapriya Multiple Campus	Pokhara, Kaski	7-11 June, 2018	Prof. Dr. Basudev Kafle (Coordinator) Prof. Dr. Geeta Pradhan (Member) Prof. Dr. Tek Nath Dhakal (Member) Prof. Dr. PN Gajjar (Member/Foreign Expert) Mr. Narayan Bhandari (QAAD Staff Member)
